at the start of the twenty first century the internet was already perceived to have fundamentally changed the landscape for research with its opportunities for digital networking novel publication schemes and new communication formats the web was a game changer for how research was done as well as what came after the dissemination and discussion of results addressing the seismic shifts of the past ten years cyberscience 2 0 examines the consequences of the arrival of social media and the increasing dominance of big internet players such as google for science and research particularly in the realms of organization and communication

this book gives insights by providing a glimpse into the past while it connects with the present and delivers perspectives on the future dimensions of india s space programme the chapters cover a broad range commercial newspace space policy space security international cooperation and space sustainability global governance and they deliver educated suggestions and opinions to policymakers of the country to review their strategies on these issues understanding expert opinions in these areas shall bestow the emerging managers of the space programme with holistic insights this work is a unique collection of thoughts and analyses on matters relevant to space policy and governance a good account of accomplishments and thought provoking puzzles on future possibilities the authors are national and international experts

in different disciplines both veteran and young scholars and thus will be an invaluable resource for policymakers academic researchers and the public at large this work can also be a concrete step for continuing discourse on varied subjects or issues of importance which demand an interactive and evolutionary approach to progress on policy while there could be some differences in the positions taken by writers with reference to the views of some stakeholders in policymaking the academic yet non formal nature of the content in this book will hopefully create enough spaces for reflecting on a cohesive and harmonious framework of policy and its continued dynamism in a field where india can make significant contributions to national and global developments

a new york times and million copy bestseller the classic handbook on reading aloud to children revised and updated recommended by dear abby the new york times and the washington post for three decades millions of parents and educators have turned to jim trelease s beloved classic to help countless children become avid readers through awakening their imaginations and improving their language skills now this new edition of the read aloud handbook imparts the benefits rewards and importance of reading aloud to children of a new generation supported by delightful anecdotes as well as the latest research the read aloud handbook offers proven techniques and strategies and the reasoning behind them for helping children discover the pleasures of reading and setting them on the road to becoming lifelong readers

there is an ongoing transition in the research enterprise towards open science os increasing transparency in researchers collaboration knowledge exchange and how science is organized the open access oa movement can be seen as a case study of the challenges that this transition can present for example despite all the advantages of oa and the fact that the concept is exceptionally strong as a principle it is yet to be implemented across all institutions particularly in africa even though research productivity from the african continent has increased over the last two decades the global north still dominates the scholarly communication and publication sphere high article processing charges apcs can make it difficult for some african researchers to publish in highly rated and respected academic journals which are critical to their career advancement fee waivers and discounts are available but eligibility and percentages vary by publisher and predatory publishing presents a challenge to african researchers in addition the exclusion of many african publication sources from the major bibliographic databases such as scopus and the of science skews and limits bibliometric analysis and influences

the outcomes of world university rankings this research topic aims to investigate the transition to os in the african continent this will include researchers and other stakeholders support services policy makers concerns regarding os as well as the advantages it offers them moreover the role of new technologies is also of interest in the implementation of oa as it is the knowledge divide between different countries and regions it is also crucial to address what needs to change in the research enterprise to make os a worthwhile venture practice for most researchers and research role players and how they can cope with the contradictory challenges

synthesising the latest thinking from neuroscience and psychology with the practice of safety management mindful safety shows how a much stronger safety culture can be built from the ground up case studies applied research and practical exercises all demonstrate how attention and the ability to focus can significantly boost performance and resilience whilst reducing human error and the number of safety incidents representing a new kind of safety thinking to meet contemporary challenges the book covers four critical levels the individual the relational the organisational and the societal the approach can be successfully applied to the healthcare road rail aviation and energy sectors for greater safety and performance the emphasis on self care strengthening relationships and learning from positives signals a clear shift in safety management thinking this is not just an insightful analytical approach but an action based one ready for implementation few approaches in the field tackle the subjects of sleep fatigue distraction smartphone addiction workplace stress and mental health with the same vigour or provide the safety toolkit for fighting a pandemic if you want to create the right mindset to achieve exceptional results in these uncertain times this book will show you how it is aimed at professionals in the health and safety industry as well as graduate students in human factors ergonomics industrial engineering and production engineering

este livro é o resultado de uma pesquisa vida em que a autora compartilha seu trajeto no doutorado e como incluir sua história e suas subjetividades a ajudou a fazer uma pesquisa com mais consciência e autoria nele são apresentadas possibilidades para que o ensino a distância no âmbito universitário fique cada vez melhor a partir de trabalhos pedagógicos feitos com um fazer docente inclusivo e empático que a autora chama de letramentos críticos reflexivos a fim de pensar caminhos que contribuam com uma universidade mais democrática decolonial e inclusiva também nessa modalidade de ensino É certo que no ambiente acadêmico é necessário que as os estudantes se apropriem de diversas

habilidades a fim de fazerem uso de variados gêneros discursivos dentre eles os associados à estrutura mais tradicional como artigos científicos resenhas e trabalhos de conclusão de curso mas mesmo nesses é necessário aprendermos enquanto estudantes e docentes a nos posicionar nos textos e a reconhecer nossa identidade na escrita visto que é assim que chegaremos à escrita autoral e ao nosso lugar de fala dentro e fora da universidade assim podemos pensar sobre a importância da contribuição dos estudos de linguagem para a mudança social especialmente quanto à escrita autoral e reflexiva que ajuda a construir um novo modo de agir de pensar e de sentir tanto para a o estudante quanto para o a professor a ser autor a é poder e saber fazer escolhas conscientes
