in recent decades the lives of people in their late teens and twenties have changed so dramatically that a new stage of life has developed in an original paper published in 2000 jeffrey jensen arnett identified this period coining it emerging adulthood and he

distinguished it from both the adolescence that precedes it and the young adulthood that comes in its wake his new paradigm received a surge of scholarly attention after his first book on the topic launched the field and both a flourishing society and journal developed to further expand this area of research studies and publications on emerging adulthood now abound and the leading research has yet to be organized into a single handbook that covers the field the oxford handbook of emerging adulthood is the first and only comprehensive compilation spanning the field of emerging adulthood expertly edited by arnett this handbook is comprised of cutting edge chapters written by leading scholars in developmental psychology topics include theoretical perspectives and structural influences in the field cognitive development during emerging adulthood family friendship and romantic relationships sexual identity and orientation education and work leisure and media use mental health religious and political beliefs positive development and substance abuse and crime to name a few sure to be the definitive resource for researchers scholars and students studying emerging adulthood this handbook will pave the way for new scholarship in this expanding area of inquiry and serve as an excellent resource for the wider field of developmental psychology

this 20th anniversary third edition of emerging adulthood fully updates and expands arnett s findings from his groundbreaking original book with a new chapter on cultural and international variations merging stories from the lives of emerging adults themselves with decades of research arnett covers a wide range of topics including love and sex relationships with parents experiences at college and work and views of what it means to be an adult

the transition from adolescence to adulthood has undergone significant changes in recent decades unlike a half century ago when young people in industrialized countries moved from adolescence into young adulthood in relatively short order at around age 20 now the decade from the late teens to the late twenties is seen as an extended time of self focused exploration and education in pursuit of optimally fulfilling relationships and careers recognition of this new period is stronger than ever but an important question remains should emerging adulthood be considered a developmental stage or a process in debating emerging adulthood stage or process two pairs of developmental psychologists take sides in a debate that is central to the very concept of emerging adulthood arnett and tanner argue that as young people around the world share demographic similarities such as longer education and later marriage the years between the ages 18 and 25 are best understood as entailing a new life stage however because the experiences of emerging adults worldwide vary according to cultural context educational attainment and social class these two scholars suggest that there may not be one but many different emerging adulthoods an important issue for this burgeoning area of inquiry is to explore and describe this variation in contrast hendry and kloep assert that stage theories have never been able to explain individual transitions across the life course in their view stage theories including the theory of emerging adulthood ought to be abolished altogether and explanations found for the processes and mechanisms that govern human change at any age this

engaging book maps out the argument of stage or process in detail with vigorous disagreements conflicting alternatives and some leavening humor ultimately even finding some common ground debating emerging adulthood is an absolute must read for developmental psychologists as well as anyone interested in this indisputably important time of life

flourishing in emerging adulthood highlights the third decade of life as a time in which individuals have diverse opportunities for positive development there is mounting evidence that this time period at least for a significant majority is a unique developmental period in which positive development is fostered dr lene arnett jensen highlights the importance of this work in an engaging foreword and chapters are written by leading scholars in diverse disciplines who address various aspects of flourishing they discuss multiple aspects of positive development including how young people flourish in key areas of emerging adulthood e g identity love work worldviews the various unique opportunities afforded to young people to flourish how flourishing might look different around the world and how flourishing can occur in the face of challenge most chapters are accompanied by first person essays written by a range of emerging adults who exemplify the aspect of flourishing denoted in that chapter and make note of how choices and experiences have helped them transition to adulthood taken together this innovative collection provides rich evidence and examples of how young people are flourishing as a group and as individuals in a variety of settings and circumstances this unique resource will be useful to students faculty professionals clinicians and university personnel who work with young adults or who study development during emerging adulthood

emerging adulthood has been identified as an important developmental stage characterised by identity exploration instability and open possibilities in which young people are no longer adolescents but have not yet attained full adult status this ground breaking edited collection is the first book to offer a comprehensive overview of emerging adulthood in a european context which includes a comparison of findings in 9 different european countries and the usa each chapter written by a leading european researcher describes the socio demographic characteristics of emerging adults reviews the state of the field synthesises new findings and provides suggestions for how to move forward in research interventions and policy the book examines how the traditional domain markers of adulthood such as finishing education and caring for children have changed it also highlights how different factors such as gender working status living arrangements romantic status and parental educational background affect the importance assigned to each set of adulthood criteria the theory of emerging adulthood is further developed by considering how arnett s emerging adulthood erikson s early adulthood and robinson s theory of early adult crisis fit together and data is provided to support the new framework given the book will be of great interest to researchers interested in these developmental transitions and to advanced students of emerging adulthood on developmental psychology and lifespan courses and related disciplines

this book portrays the lives of young americans between adolescence and young adulthood

addressing both the changes in the study of adolescent behavior and the changes in the nature of adolescent development in western society this informative collection of readings provides a comprehensive cross cultural perspective of adolescent development covering every aspect of adolescent development as it takes place in cultures worldwide and historically this book takes a longer age range approach to emerging adulthood and provides a look at this pivotal developmental period extending into the early twenties essays analyze the changes in the study of adolescent development and changes in adolescent development from age ten to early twenties historically and around the world for individuals interested in adolescent development

helps students understand how culture impacts development in adolescence and emerging adulthood grounded in a global cultural perspective within and outside of the us this text enriches the discussion with historical context and an interdisciplinary approach including studies from fields such as anthropology and sociology in addition to the compelling psychological research on adolescent development this book also takes into account the period of emerging adulthood ages 18 25 a term coined by the author and an area of study for which arnett is a leading expert the full text downloaded to your computer with ebooks you can search for key concepts words and phrases make highlights and notes as you study share your notes with friends ebooks are downloaded to your computer and accessible either offline through the bookshelf available as a free download available online and also via the ipad and android apps upon purchase you ll gain instant access to this ebook time limit the ebooks products do not have an expiry date you will continue to access your digital ebook products whilst you have your bookshelf installed

for undergraduate courses in adolescent development the first new text for courses in adolescent development in years this text introduces the field of adolescent development using a timely interdisciplinary perspective and emphasizes the strong role that culture both within the united states and around the world plays on the development of individuals during adolescence this text also introduces the notion of emerging adulthood and examines the period of change and exploration that happens between the ages of 18 25 an age period which has received little focus until now incorporating many first person accounts from adolescents across cultures thinking critically questions a full color presentation historical focus research focus and cultural focus features and rich end of chapter pedagogy offers students a rich and timely introduction to adolescent development

the most distinctive feature of the second edition is its theoretical orientation coupled with a focus on understanding emerging and young adulthood from multiple perspectives the updated and expanded book offers readers an opportunity to listen to the voices of emerging and young adults parents and employers which is key to understanding this particular developmental period in addition

the case studies provided throughout the book are diverse and detailed the issues of emerging adulthood are complicated nuanced and defy easy characterizations this book provides an opportunity to debunk many established pernicious stereotypes about emerging and young adults the presentation of diverse voices and case material serves as a springboard for discussion and engages readers with material depicting emerging adults in the throes of working through developmental challenges characteristic of this period in addition the recent economic downturn has created havoc and further instability in the lives of emerging and young adults the second edition focuses on the effects of as well as possible solutions to unemployment on emerging and young adults a new chapter focuses on career experimentation versus career floundering which is an important distinction additional new chapters address the effects of technology as well as depression and anxiety on emerging and young adults the second edition examines emerging and young adulthood within a larger developmental and ecological context in addition it ensures that readers are well positioned to understand how the developmental demands of this period intersect with current economic social and political realities it is a must have resource for developmental clinical child and school psychologists rehabilitation counselors and therapists i o psychologists and sociologists as well as for researchers and graduate level students across these various disciplines

emerging adulthood has been identified as an important developmental stage characterised by identity exploration instability and open possibilities in which young people are no longer adolescents but have not yet attained full adult status this ground breaking edited collection is the first book to offer a comprehensive overview of emerging adulthood in a european context which includes a comparison of findings in 9 different european countries and the usa each chapter written by a leading european researcher describes the socio demographic characteristics of emerging adults reviews the state of the field synthesises new findings and provides suggestions for how to move forward in research interventions and policy the book examines how the traditional domain markers of adulthood such as finishing education and caring for children have changed it also highlights how different factors such as gender working status living arrangements romantic status and parental educational background affect the importance assigned to each set of adulthood criteria the theory of emerging adulthood is further developed by considering how arnett s emerging adulthood erikson s early adulthood and robinson s theory of early adult crisis fit together and data is provided to support the new framework given the book will be of great interest to researchers interested in these developmental transitions and to advanced students of emerging adulthood on developmental psychology and lifespan courses and related disciplines

emerging adulthood the period between the late teens and mid twenties is a unique and important developmental period during which people gain relationship experience before settling on someone to partner with romantic relationships in emerging adulthood presents a synthesis of research and theory on this topic leading scholars from demography sociology family studies and psychology provide original data and theoretical analyses that address the formation nature and significance of romantic relationships in

emerging adults until recently it was assumed that romantic relationships in emerging adults were not particularly important or formative the material presented allows this assumption to be thoroughly evaluated this volume is intended to be a resource for anyone interested in understanding romantic relationships in emerging adulthood it is especially appropriate for classroom use in upper level undergraduate and graduate courses in the fields of family sociology human development and family studies clinical and developmental psychology and social work

the life story domains of identity and personality development in emerging adulthood focuses on individuals formulations of the unique episodes of their lives that give us meaning and a sense of personal identity

recently the lives of people from age 18 to 29 have changed so dramatically that a new stage of life has developed emerging adulthood that is distinct from both the adolescence that precedes it and the young adulthood that comes in its wake rather than marrying and becoming parents in their early twenties most people in industrialized societies now postpone these transitions until at least their late twenties and instead spend the time in self focused exploration as they try out different possibilities in their careers and relationships in emerging adulthood jeffrey jensen arnett identifies and labels for the first time this period exploration instability possibility self focus and a sustained sense of being in limbo an increasing number of emerging adults emphasize having meaningful and satisfying work to a degree not seen in prior generations marrying later and exploring more casual sexual relationships have created different hopes and fears concerning long term commitments and the differences between love and sex emerging adults also face the challenge of defending their non traditional lifestyles to parents and others outside their generation who have made much more traditional choices in contrast to previous portrayals of emerging adults arnett s research shows that they are particularly skilled at maintaining contradictory emotions they are confident while still being wary and optimistic in the face of large degrees of uncertainty as the demographics of american youth the american workplace and adulthood continue to evolve emerging adulthood is indispensable reading for anyone wanting to understand the face of modern america

revised edition of the author s adolescence and emerging adulthood c2013

help students understand how culture impacts development in adolescence and emerging adulthood reveal tm adolescence and emerging adulthood a cultural approach helps students examine this dynamic and complex age period through the lens of culture utilizing a multidisciplinary approach author jeffrey jensen arnett seeks to frame not only how students understand themselves but how they understand others and how they think about the world around them the text is distinguished by its emphasis on the period of emerging adulthood ages 18 25 a term coined by the author and a growing area of study the sixth edition includes the

latest data as well as fresh content that ensures an up to date learning experience revel is pearson s newest way of delivering our respected content fully digital and highly engaging revel replaces the textbook and gives students everything they need for the course informed by extensive research on how people read think and learn revel is an interactive learning environment that enables students to read practice and study in one continuous experience for less than the cost of a traditional textbook note revel is a fully digital delivery of pearson content this isbn is for the standalone revel access card in addition to this access card you will need a course invite link provided by your instructor to register for and use revel

emerging adults are taking a longer time to construct their identities including commitment to partners and they are doing so in the context of an unpredictable shifting global economy with a paucity of guidelines to inform their choices while popular wisdom suggests they are narcissistic entitled easily distracted self absorbed and impatient traits that certainly do not position them to be successful romantic partners this book presents alternative perspectives that are grounded in theory and practice it articulates the tensions between opposing dynamics the desire for a committed trusting long term relationship and the need to protect oneself and continue to grow as an individual in the event that such a relationship never materializes

in lost in transition christian smith and his collaborators draw on 230 in depth interviews with a broad cross section of emerging adults ages 18 23 to investigate the difficulties young people face today the underlying causes of those difficulties and the consequences both for individuals and for american society as a whole from publisher description

early adulthood in a family context based on the 18th annual national symposium on family issues emphasizes the importance of both the family of origin and new and highly variable types of family formation experiences that occur in early adulthood this volume showcases new theoretical methodological and measurement insights in hopes of advancing understanding of the influence of the family of origin on young adults lives both family resources and constraints with respect to economic social and human capital are considered
