this book is a concise treatise on the path to conscious awareness of our lord the muslim tradition considers this the primary reason for our existence and the means by which we are ensured continued succor from our creator this classic volume elucidates a simple yet effective means to transform our inner world through spiritual struggle with our soul

in recent years islam whether via the derivatives of political islam or islamism has come to be seen as an activist force in social and political spheres worldwide what such representations have neglected is the strong countervailing tradition of political quietism political quietism in islam holds that it is not for muslims to question or oppose their leaders rather the faithful should concentrate on their piety prayer religious rituals and personal quest for virtue this book is the first to analyze the history and meaning of political quietism in islamic societies it takes

an innovative cross sectarian approach investigating the phenomenon and practice across both sunni and shi i communities contributors deconstruct and introduce the various forms of political quietisms from the time of the prophetic revelations through to the contemporary era chapters cover issues ranging from the politics of public piety among the women preachers in saudi arabia through to the legal discourses in the caucasus the different shi i communities in iran lebanon iraq and pakistan and the gülen movement in azerbaijan the authors describe a wide range of political quietisms and assess the continuing significance of the tradition both to the study of islam and to the modern world today

this book aims to bring muslim theology into the present day rather than a purely academic pursuit modern muslim theology argues that theology is a creative process and discusses how the islamic tradition can help contemporary practitioners negotiate their relationships with god with one another and with the rest of creation

the present book aims to take on this challenge by looking at the major problems from these various aspects as just mentioned obviously one short book can hardly address all these problems and suggest solutions without certain simplifications and potentially controversial assertions nevertheless it can hope to present a systematic analysis and suggested prognosis based on a coherent philosophy as indicated above nothing is more needed in our times and second to spiritual weakening the greatest problem of all facing the islamic world and indeed the whole world is lack of understanding of the true natures and essences of things this book examines our times from an islamic philosophical worldview looking at the problems facing the islamic world in the near past present and future respectively in three mutually complementary parts at the end of each part it suggests holistic and easily applied remedies to the problems it examines in other words and for those who enjoy sonorous german and greek philosophical terms it examines the zeitgeist from the weltanschauung of islam and suggests panaceas prince ghazi bin muhammad has written a number of books and guides for thinking people and this small but potent work before you sums up many of his most keen and cogent insights and conclusions for that reason this may be his most impactful and motivational work to date

the arab revolutions of 2011 were a transformative moment in the modern history of the middle east as people rose up against long standing autocrats throughout the region to call for bread freedom and dignity with the passage of time results have been decidedly mixed with tentative success stories like tunisia contrasting with the emergence of even more repressive dictatorships in places like egypt with the backing of several gulf states focusing primarily on egypt this book considers a relatively understudied dimension of these revolutions the role of prominent religious scholars while pro revolutionary ulama have justified activism against authoritarian regimes counter revolutionary scholars have provided religious backing for repression and in some cases the mass murder of unarmed protestors usaama al azami traces the public engagements and religious pronouncements of several prominent ulama in the region including yusuf al qaradawi ali gomaa and abdullah bin bayyah to explore their role in either championing the arab revolutions or supporting their repression he concludes that while a minority of noted scholars have enthusiastically endorsed the counter revolutions their approach is attributable less to premodern theology and more to their distinctly modern commitment to the authoritarian state

this exploration of islamic spirituality delves into the psychological diseases and cures of the heart diseases examined include miserliness envy hatred treachery rancour malice ostentation arrogance covetousness lust and other afflictions that assail people and often control them the causes and practical cures of these diseases are discussed offering a penetrating glimpse into how islam deals with spiritual and psychological problems and demonstrating how all people can benefit from these teachings

philip lewis looks at the lives and beliefs of young muslims aged 18 30 against a backdrop of the problems any migrant community face

prior to the advent of electricity every night held the possibility of a celestial light show people in even the most urban environments were exposed to the awe and majesty of the heavens which clearly proclaim the glory of god the contemplation of the celestial orbs and their movements provided early man with the most direct connection to his lord in the qur anic story of abraham it is his observance of heavenly phenomena that leads him to his certainty of god s unity and transcendence since the time of the seljuq turks the crescent moon has been a sign of islam for muslims in north america there has been much confusion regarding when ramadan begins when to fast and when to break

the fast hamza yusuf provides clarity through this detailed and scholarly work that decisively makes the case for sighting the crescent moon with the naked eye as has been the islamic tradition for 1400 years this is essential reading for anyone seeking guidance on this important and sacred matter
