a companion to linguistic anthropology provides a series of in depth explorations of key concepts and approaches by some of the scholars whose work constitutes the theoretical and methodological foundations of the contemporary study of language as culture provides a definitive overview of the field of linguistic anthropology comprised of original contributions by leading scholars in the field summarizes past and contemporary research across the field and is intended to spur students and scholars to pursue new paths in the coming decades

anthropology and linguistics as historically developing disciplines have had partly separate roots and traditions in particular settings and in general the two disciplines have partly shared partly differed in the nature of their materials their favorite types of problem the

personalities of their dominant figures their relations with other disciplines and intellectual current the two disciplines have also varied in their interrelation with each other and the society about them institutional arrangements have reflected the varying degrees of kinship kithship and separation such relationships themselves form a topic that is central to a history of linguistic anthropology yet marginal to a self contained history of linguistics or anthropology as either would be conceived by most authors there exists not only a subject matter for a history of linguistic anthropology but also a definite need

this book provides an overview of approaches to language and culture and it outlines the broad interdisciplinary field of anthropological linguistics and linguistic anthropology it identifies current and future directions of research including language socialization language reclamation speech styles and genres language ideology verbal taboo social indexicality emotion time and many more furthermore it offers areal perspectives on the study of language in cultural contexts namely africa the americas australia and oceania mainland southeast asia and europe and it lays the foundation for future developments within the field in this way the book bridges the disciplines of cultural anthropology and linguistics and paves the way for the new book series anthropological linguistics

over the years linguistic anthropological research has shown how classrooms are socializing institutions and how language functions as one medium through which this socialization is accomplished early work in the field has captured the immediacy of social practice and language use in educational contexts and has created useful characterizations of variations in communicative competence the present work builds on the strengths of prior work showing how new theoretical concepts and empirical methods developed in linguistic anthropology over the last decade can further illuminate educational settings the authors introduce an updated linguistic anthropology of education which recognizes that in the rapidly changing field of cultural production within which children and teachers operate today the exploration of multiple pre existing forms of communicative competence is not enough this volume elaborates theory and illustrates the tools and practices of the linguistic anthropology of education to account for today s research context in which the multiplicity of identity and the multiple ways language can be used to represent it have important ramifications for how learning and social reproduction emerge within educational contexts

the routledge handbook of linguistic anthropology is a broad survey of linguistic anthropology featuring contributions from prominent scholars in the field each chapter presents a brief historical summary of research in the field and discusses topics and issues of current concern to people doing research in linguistic anthropology the handbook is organized into four parts language and cultural productions language ideologies and practices of learning language and the communication of identities and language and local global power and

covers current topics of interest at the intersection of the two fields while also contextualizing them within discussions of fieldwork practice featuring 30 contributions from leading scholars in the field the routledge handbook of linguistic anthropology is an essential overview for students and researchers interested in understanding core concepts and key issues in linguistic anthropology
