why should anyone care about the medium of communication today especially when
 talking about media law in today s digital society many emphasise convergence and seek
 new regulatory approaches in medium law however the medium theory insights of harold
 innis marshall mcluhan and the toronto school of communication are drawn upon as part
 of an argument that differences between media and technological definitions continue to
 play a crucial role in the regulation of the media indeed mac síthigh argues that the idea
 of converged cross platform medium neutral media regulation is unattainable in practice
 and potentially undesirable in substance this is demonstrated through the exploration of
 the regulation of a variety of platforms such as films games video on demand and
