How to Effectively Prepare

- 1 Mastering the Content Kaplan Review Materials Your Kaplan course materials are your primary resource Thoroughly review all lecture notes textbooks and practice questions Dont just read passively actively engage with the material Highlight key concepts take notes and create flashcards Focus on Key Concepts Dont get bogged down in minor details Identify the core concepts and principles underlying each topic For example in cardiovascular disorders understanding cardiac output preload afterload and contractility is crucial regardless of the specific condition Practice Practice Practice Kaplan provides practice exams but dont limit yourself to those Seek out additional resources like NCLEXRN review books many cover similar content and online question banks The more questions you answer the better youll become at identifying patterns and recognizing key information
- 2 Developing Effective Study Techniques Active Recall Instead of passively rereading notes try to recall information from memory Use flashcards practice questions or teach the concepts to someone else Spaced Repetition Review material at increasing intervals This technique strengthens memory retention over time Use apps like Anki

to schedule your reviews effectively Focus on Weak Areas Identify your areas of weakness through practice exams and dedicate more time to mastering those topics Dont neglect your strengths but prioritize improvement in areas where you struggle

3 Understanding the Question Types

Kaplan exams often incorporate various question formats multiplechoice selectallthat apply prioritization and even case studies Familiarize yourself with each type and practice answering them efficiently Heres a breakdown

MultipleChoice

Eliminate incorrect answers first Focus on key words and qualifying phrases SelectAllThatApply Read each option carefully and independently Dont assume answers based on previous selections

Prioritization

Consider the urgency and importance of each task based on patient safety and needs Use Maslows hierarchy of needs as a guideline

Example Prioritization Question

A nurse is caring for four patients Which patient should the nurse assess first

A A patient with stable angina reporting mild chest discomfort

B A patient with a new onset of shortness of breath and oxygen saturation of 88

C A patient with a postoperative wound that is slightly red and draining

D A patient with diabetes who is experiencing mild hypoglycemia

Answer B The patient with newonset shortness of breath and low oxygen saturation requires immediate attention due to potential respiratory distress

3 4 Simulating Exam Conditions

Take practice exams under timed conditions to simulate the actual testing environment This helps to build your stamina manage your time effectively and reduce test anxiety

Visual The Ideal Study Setup

Imagine a clean organized workspace a comfortable chair good lighting your Kaplan materials neatly arranged a bottle of water and perhaps some healthy snacks Minimize distractions put your phone on silent and create a focused study environment

How to Approach a Difficult Question

When confronted with a challenging question break it down systematically

- 1 Read the question carefully Identify the key elements and what is being asked
- 2 Analyze the options Eliminate obviously incorrect answers
- 3 Review relevant concepts Recall the related pathophysiology nursing interventions and assessment findings
- 4 Consider the patients overall condition Dont focus solely on individual symptoms
- 5 Make your best guess If youre truly unsure eliminate as many options as possible and make an educated guess

this book has a question mark in its title because it aims to invite inquiry the possibility of integrating psychoanalytic and behavior therapies has been controversial since it was first proposed about 50 years ago and this has elicited a wide range of reactions from both psychologists and psy chiatrists it was with the hope of fostering constructive interchange that this book was conceived we wanted to spark further thinking about the question in the title in a way that could lead either to conceptual and clinical progress toward an integrated approach or to a clearer sense of the obstacles involved in either case we hoped that it would present a healthy challenge to current forms of psychoanalytic and behavior therapies the present volume was stimulated by the appearance in 1977 of paul wachtel s book

psychoanalysis and behavior therapy toward an integration although many reviewers did not necessarily agree with wachtel's proposals for integration they and we were highly laudatory of his attempt after reading the book hal arkowitz organized a symposium on integration that took place in chicago at the november 1978 meeting of the association for the advancement of behavior therapy the symposium included cyril franks merton gill hans strupp paul wachtel and michael merbaum as moderator arkowitz subsequently proposed to edit a book on integration and invited messer to be coeditor
