horseshoe crabs and hibernating squirrels jet lagged pilots and space station astronauts night owls and early birds all of life is profoundly shaped by the daily monthly and yearly cycles of planet earth this book takes the reader on a journey across a broad vista of science to make sense of the mysteries of biological time how do the rotations of our planet shape our biology what did human sleep cycles look like before artificial light what happens to a person s waking and sleeping if they spend weeks in a dark cave how adaptable are we to today s 24 7

living humans are relative latecomers in the story of life on earth but we often think that technology has freed us from its constraints written by a world leading chronobiologist night owls and early birds illuminates the fascinating science of biological time and offers a stark warning to anyone giving up on a night's sleep to get more out of their busy waking hours

the open access version of this book available at taylorfrancis.com/books/9780429352775 has been made available under a creative commons attribution non commercial no derivatives 4.0 license no city environment reflects the meaning of urban life better than a public place a public place whatever its nature a park a mall a train platform or a street corner is where people pass by meet each other and at times become a victim of crime with this book we submit that crime and safety in public places are not issues that can be easily dealt with within the boundaries of a single discipline the book aims to illustrate the complexity of patterns of crime and fear in public places with examples of studies on these topics contextualized in different cities and countries around the world this is achieved by tackling five cross cutting themes the nature of the city's environment as a backdrop for crime and fear the dynamics of individuals daily routines and their transit safety the safety perceptions experienced by those who are most in fear in public places the metrics of crime and fear and finally examples of current practices in promoting safety all these original chapters contribute to our quest for safer more inclusive resilient equitable and sustainable cities and human settlements aligned to the global 2030 agenda for sustainable development

walking is an essentially human activity from a basic means of transport and opportunity for leisure through to being a religious act walking has served as a significant philosophical literary and historical subject thoreau's 1851 lecture on walking or the romantic walks of the wordsworths at grasmere in the early 19th century for example helped create a philosophical foundation for the importance of the act of walking as an act of engagement with nature similarly and sometimes inseparable from secular appreciation pilgrimage trails provide opportunities for finding self and others in the travails of the walk more recently walking has been embraced as a means of encouraging greater health and well being community improvement and more sustainable means of travel yet despite the significance of the subject of walking there is as yet no integrated treatment of the subject in the social science literature this handbook therefore brings together a number of the main themes on the study of walking from different disciplines and literatures into a single volume that can be accessed from across the social sciences it is divided into five main sections culture society and historical context social practices perceptions and behaviours hiking trails and pilgrimage routes health well being and psychology and method planning and design each of these highlights current approaches and major themes in research on walking in a range of different environments this handbook carves out a unique niche in the study of walking the international and cross disciplinary nature of the contributions of the book are expected to be of interest to numerous

academic fields in the social and health sciences as well as to urban and regional planners and those in charge of the management of outdoor recreation and tourism globally

this book provides a critical analysis of how the war on terror affected the civilian population in afghanistan and pakistan this forgotten war which started in 2001 with the us led invasion of afghanistan has seen more than 212 000 people killed in war related incidents whilst most of the news media shifted their attention to other conflict zones this war rages on badalič has amassed a vast amount of data on the civilian victims of war from both sides of the durand line the border between afghanistan and pakistan he conducted interviews in peshawar quetta islamabad kabul jalalabad and many other cities and villages from 2008 to 2017 his data is mostly drawn from those extensive conversations held with civilian victims of war afghan and pakistani officials human rights activists and members of the insurgency the book is divided into three parts the first examines the impact the us led coalition afghan security forces and paramilitary groups had on civilians with methods of combat such as drone strikes and kill or capture missions the second part focuses on civilian victims of abuses of power by pakistani security forces including arbitrary detentions and forced disappearances in the final part badalič explores the impact of unlawful practices used by the armed insurgency the afghan taliban overall the book seeks to tell the story of the civilian victims of the war on terror

this executive summary describes an investigation into the performance of pavement markings in wet night conditions the performance of a typical pavement marking will degrade when it gets wet this is a result of the flooding of the marking optics thereby reducing retroreflectivity several technologies are available to improve wet marking performance in this project six technologies were tested using both standard measurement methods and participant evaluations the results show that two of the marking technologies raised retroreflective markers and wet retroreflective tape outperformed the group under all conditions these markings were also highly accepted by the participants the results also show that the standard paint and glass beads technology is the worst performing and the least desirable of those evaluated a comparison of the astm retroreflectivity measurement methods and the measured luminance results also indicates that the methods are suitable for the conditions used in the evaluation however possible additions and corrections to the methods are outlined in this report a follow up study is underway to allow development of a performance based specification for pavement markings for wet night visibility

this collection of 104 papers is divided into two parts part one image intensification focuses on developments with image intensified tubes part two thermal imaging concentrates on the practical applications of night vision technology for its main users the armed forces

how 100 000 new parents trained their babies to sleep through the night the natural way

this text looks at the dual relationship of the canadian north as both resource frontier and homeland of many aboriginal groups since the last edition of this text many changes have occurred raising the possibility that both the frontier and homeland concepts can become a northern reality these concepts are coherently presented throughout the book and brought to the fore in the concluding chapter

who is the enemy who is an innocent bystander when can i use force and how much force should i use the answers to these questions vary according to the role of the soldier and the rules of engagement under which he is operating at a particular time and in a particular place on the battlefield we owe the american soldier who for future conflicts must be equally prepared to direct traffic and to close with and destroy the enemy answers to these questions but most important after we determine the answers we must be willing to train on them
