almost a quarter of a million students take sat subject tests previously known as the college board achievement tests every year many colleges require sat ii subject test scores the purpose of these tests is to measure and demonstrate your knowledge and or skills in specific subjects and to test your ability to apply that knowledge on each particular examination the better your score is the better your application will look to the colleges of your choice if you re reading this book it s likely that you are preparing for one of the sat ii biology exams we have tried to make this a workable book in other words the book is set up so that regardless of the level exam you re taking you will be able to find the material necessary to study and to take those tests that are most applicable to your level divided into sections the book begins with a diagnostic biology exam the purpose of this diagnostic test is to help you get a handle on what you know and what needs more work take this exam and all of the tests under simulated exam conditions if you can what this means is that you should find a quiet place in which to work set up a clock and take the test without stopping when you are finished take a break and then go back and check your answers always reread those questions you got wrong since sometimes an error can come from merely misreading the question again double check your answers and if they re still not clear read the appropriate section in the review material once you ve completed your diagnostic test it s time to move on to the biology review section study the material carefully but feel free to skim those portions of the review section that are easiest for you then take the practice tests there are three simulated exams designed to give you a broad spectrum of question types similar to those you will find on the actual sat ii biology test we suggest that regardless of whether you plan to take the e ecological or m molecular version of the test it would be extremely helpful to take all of the tests in the book in this way you will have a much broader perspective of the exam and may even surprise yourself as to how much

you actually know about each level as you complete each exam take some time to review your answers we think you'll find a marked improvement as you work through the diagnostic test and complete all of the full length practice tests always take the time to check the review section for clarification and if you still don't understand the material go to your teacher for help the biology e m test contains 60 general biology questions followed by 20 questions in each of the special sections biology e or biology m you can select the area in which you feel most confident and after completing the 60 core questions you can then take either the ecological or molecular sections that selection can be made when you take the test by filling in the appropriate code for the section you wish to take you cannot take both sections on the same test date
