this work attempts to present rumi to the english speaking world and to shed light on his life as seen from within the islamic mystical tradition the knowledge presented in this work comes from sefik can a great expert of rumi and who used to be the highest authority sertariq of the mevlevi sufi order in turkey until he passed away on january 24 2005 two aspects of this work make it unique the first is that the book was originally authored by a man who is ninety five years old and who has dedicated his entire life to the teachings of rumu such a mevlevi s view of rumi makes this work greatly valuable the second important contribution to the book is the foreword which was translated

by from the original turkish written by m fethullah gulen a prominent muslim thinker and interfaith activist of turkey

given the prophet muhammad s immense impact on history surprisingly few books specifically analyze his understanding and employment of warfare as an economically politically and socially transformational process even though he was continuously at war for a decade and initiated around eighty armed missions twenty seven of which he led himself most islamic biographies deal with this issue by using an understandable but insufficient logic that because muhammad as the messenger of allah was the ideal and paradigmatic human he must have been an ideal and paradigmatic military commander his successes flowed from his prophetic status and his moral perfection following this logic and wanting muhammad s behavior to conform to very modern ethical concepts and widespread but not necessarily accurate beliefs about the nature and conduct of war the writers have inadvertently created a narrative which in significant ways departs from the account clearly and consistently revealed in the earliest extant arabic sources the writers narrative also removes the prophet from his historical and cultural context and the realities of the harsh and competitive tribal society in which he lived professor joel hayward sees this as an unhelpful explanatory tendency and believes that the modern depiction of the prophet s relationship with warfare which presents him as being rather antipathetic to war indeed as virtually a pacifist who only fought reluctantly in self defense cannot actually be sustained by an even handed analysis of the early islamic sources a committed muslim himself hayward agrees that muhammad was a moral and decent man who saw peace as a highly desirable state in which humans should live and as a goal worth pursuing yet hayward has approached the prophet s understanding and employment of warfare from a different vantage point he has painstakingly scrutinized the earliest arabic sources impartially according to the strict standards of historical inquiry in order to ascertain whether muhammad s actions habits and methods can when understood within their original seventh century stateless arabian context provide any substantial and meaningful insights into the way that he understood and undertook warfare hayward concludes that muhammad was an astute situationally aware and self reflective man who created and communicated a believable strategic vision of a necessary and desirable future that vision persuaded increasing numbers of people to follow him and risk everything willingly in the struggle to create the optimal conditions for their survival security and prosperity in a competitive and conflictual environment with ubiquitous threats warfare was necessary to make real the bold new world that he foresaw through original meticulously researched and rigorous analysis hayward covers all the raids and campaigns and demonstrates that muhammad correctly understood the necessity and utility of force and duly developed into an intuitive effective and victorious military practitioner who developed and enforced a strict moral code so as to attain his goals whilst safeguarding the innocent this engaging accessible yet deeply scholarly book makes a major contribution to strategic and military analysis and to the prophet s biography

it is taken for granted even among many washington policymakers that islam is a fundamentally peaceful religion and that islamic jihad terrorism is something relatively new a product of the economic and political ferment of the twentieth century but in the history of jihad from muhammad to isis islamic scholar robert spencer proves definitively that

islamic terror is as old as islam itself as old as muhammad the prophet of islam who said i have been made victorious through terror spencer briskly traces the 1400 year war of islamic jihadis against the rest of the world detailing the jihad against europe including the 700 year struggle to conquer constantinople the jihad in spain where non muslims fought for another 700 years to get the jihadi invaders out of the country and the jihad against india where muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion told in great part in the words of contemporary chroniclers themselves both muslim and non muslim the history of jihad shows that jihad warfare has been a constant of islam from its very beginnings and present day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great islamic warrior states and jihad commanders of the past the history of jihad from muhammad to isis is the first one volume history of jihad in the english language and the first book to tell the whole truth about islam s bloody history in an age when islamic jihadis are more assertive in western countries than they have been for centuries this book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform islam and defeat radical terror

in this exhaustive survey of the institution of al kharaj land tax in islam ghaida khazna katbi provides a comprehensive and minutely detailed history of a practice which evolved from an exigency of conquest into an essential pillar of the early islamic state at the time of the muslim conquests al kharaj constituted a tax on lands owned by non muslims it gradually developed into an instrument of state under umar bin al khattab and reached its most refined and complex form under the abbasids katbi provides a thoroughly documented statistical analysis of the historical materials for each region of the early islamic world in the process examining the byzantine and sasanian models which the arab administrators consulted and in some instances adopted she reveals unprecedented source material including never before published correspondence from umayyad functionaries as well as other documents from the caliphate umayyad and abbasid periods

includes a later edition of the proceedings of the 1st congress comprenant le sommaire des travaux de la première période et les mémoires in extenso de la seconde période contains contributions on various subjects notably india buddhism ancient chronology etc
