in volume 1 of this four volume series ecological problems of a general nature were discussed from a global point of view familiarity with this is essential for a full understanding of the more specialized treatment in this and subsequent volumes for no similar approach is to be found in other ecological handbooks for beginners this present volume deals in detail with the special ecological relations of the tropical and subtropical zoniomes i to iii most ecologists proceed from the basis of their experience in the temperate zones of the northern hemisphere as a result many ecological writings show a certain one sidedness and there is a danger that generalizations made will not be broadly applicable to avoid this particular emphasis is laid in this volume on the special ecological features and the characteristics of the tropical and subtropical regions more specifically we deal not only with the relationship of the euclimatope to zonal soils and zonal vegetation but also pay attention to azonal conditions shown in pedoniomes and in the altitudinal belts of mountains the zoniomes in this and the subsequent volumes the same simple scheme is followed in treating each zoniome 1 climate 2 soils 3 producers 4 consumers 5 decomposers 6 ecosystems 7 subdivision into biomes 8 zoniomes 9 pedoniomes and 10 zonoecotones where it has appeared expedient however we have occasionally deviated from this scheme see deserts d f g and h

the invertebrate world of australia's subtropical rainforests is a comprehensive review of australia's gondwanan rainforest invertebrate fauna covering its taxonomy distribution biogeography fossil history plant community and insect plant relationships this is the first work to document the invertebrate diversity of this biologically important region as well as

explain the uniqueness and importance of the organisms this book examines invertebrates within the context of the plant world that they are dependent on and offers an understanding of australia s outstanding but still largely unknown subtropical rainforests all major and many minor invertebrate taxa are described and the book includes a section of colour photos of distinctive species there is also a strong emphasis on plant and habitat associations and fragmentation impacts as well as a focus on the regionally inclusive gondwana rainforests central eastern rainforest reserves of australia world heritage area the invertebrate world of australia s subtropical rainforests will be of value to professional biologists and ecologists as well as amateur entomologists and naturalists in australia and abroad

this series of reports is in a sense a continuation but with a decided expansion of the plan of the english ruling cases as it takes the cases from the british empire instead of from england only but it continues the english ruling cases in the sense that it will include the most important cases from the english courts decided since that series terminated pref
