certain things like justice have impersonal value other things like your parents carry personal values they have value for you besides whatever value they have they are valuable to you the philosophical literature as well as non philosophical literature is inundated with suggestions about the kinds of thing that are good for us or if it is a negative personal value what is bad for us this is a stimulating and vivid area of philosophical research but it has tended to monopolize the notion of good for linking it necessarily to welfare or well being since these more or less well grounded pieces of advice are seldom accompanied by an analysis of the notion of good for there is a need for such an analysis rønnow rasmussen remedies this need by offering a novel way of analyzing the notion of personal value he defends the idea that we have reason to expand our classical value taxonomy with these personal values by fine tuning a pattern of value analysis which has roots in the writings of the austrian philosopher franz brentano this sort of analysis will come to cover personal values too in addition rønnow rasmussen makes substatial contributions to a number of issues including hedonism vs preferentialism subjectivism vs objectivism value bearer monism vs value bearer pluralism and the wrong kind of reason problem all of which are much debated among today s value theorists

seminar paper from the year 2020 in the subject business economics information management grade 2 0 university of bremen language english abstract this paper shows with the help of a meta analysis the existence of the determinants of an audit report lag moreover this article calculates the relevance of these determinants with the help of z scores the justification of this paper is to get a greater extent of knowledge through a meta analytic literature review of the determinants of audit report lags an audit report lag is the number of days from a company s fiscal year end to the date of its auditor s report due to the great development of the globalization and economy this world has more economical data and is more complicated in an economical context than before proof for this statement is the subprime crisis 2007 where asset backed commercial papers had a complicated transformation in addition to this the accounting has issues with too much information and complicated financial products at first accounting has problems with disclosure of information in the financial statement secondly big data challenges accounting and finally audit report lags are larger after a new standard is set by the standard setter or a company has a poor performance in this particular fiscal year in addition to this last problem there are a lot of more determinants for an audit report lag than these two accordingly this audit report lag is a problem for accounting
