Gus Martin's *Understanding Homeland Security* provides students with a comprehensive introduction to U.S. homeland security in the modern world with a focus on the post-September 11/2001 era. This insightful resource examines the theories, agency missions, laws, and regulations governing the homeland security enterprise through the lens of threat scenarios and countermeasures related to terrorism, natural disasters, emergency management, cyber security, and much more. The third edition keeps readers on the forefront of homeland security with coverage of cutting-edge topics such as the role of FEMA and preparedness planning, the role of civil liberty, and countering extremism through reform and hackings during the 2016 and 2018 U.S. elections. Readers will gain much-needed insight into the complex nature of issues surrounding today's homeland security and learn to think critically to analyze and respond to various threat environments.

Frank Fabozzi and Chuck Ramsey update their treatise on nonagency mortgage-backed securities in this third edition of the *Handbook of Nonagency Mortgage Backed Securities*, focused on an important investing area that continues to grow. This book provides comprehensive coverage of all aspects of this specialized market sector, including the mortgage-related asset-backed securities market and commercial mortgage-backed securities. There is information on raw products such as jumbo loans, alternative A mortgages, and 125 LTV mortgages, as well as structured products, analytical techniques, prepayment characteristics, and credit issues. This fast-growing segment also includes nonagency pass-through, nonagency collateralized mortgage obligations, home loan equity-backed securities, and manufactured housing loan-backed securities.

This anthology from the year 2014 in the subject business economics, business management, corporate governance, grade 70, University of Portsmouth Institute of Criminal Justice Studies course BSc Security and Risk Management, language English, abstracts this collection of essays. It outlines the work of one BSc student in security and risk management from the University of Portsmouth, UK. It provides useful insights towards a better understanding of the topics of security, risk, and organised crime. This book will be of particular relevance for

bsc students in security and risk management and for security professionals who would like to deepen their academic knowledge list of essays what are the main influences on the function of a security manager in the retail and aviation sectors is there such a thing as an unified theory of risk and does the academic literature account for such principle adequately there has been a move away from risk as probability to risk as accountability and liability which place the emphasis upon the individual business continuity management has evolved as a business function critically discuss how corporate security management is evolving the introduction of more privatisation into public policing will bring lower standards and risk greater corruption critically examine the appropriateness of the term organised crime
