john keats remains one of the most familiar and beloved of english poets but has received surprisingly little critical attention in recent years this study is a fresh contribution to keats criticism and romantic scholarship positioning keats as a figure of philosophical interest who warrants renewed attention exploring keats s own romantic accounts of feeling and thinking this study draws a connection between poetry and the phenomenological branches of modern philosophy the study takes keats s poetic evocation of touching hands wandering feet beating hearts and breathing bodies as a descriptive elaboration of consciousness and a phenomenological account of experience the philosophical terms of analysis adopted here challenge the orthodoxies of keats

scholarship traditionally characterised by the careful historicisation of a limited canon the philosophical framework of analysis enhances the readings put forward while Keats's poems in turn serve to give fuller expression of those ideas themselves using Keats as a particular case this book also demonstrates the ways in which theory and philosophy supplement literary scholarship
