reviews and hands on test practice with accompanying cd

this book explores the nature of teacher and school resilience in times of uncertainty and how resilience can be nurtured within individual schools and educational systems as a whole innovative approaches to exploring these concepts are presented as well as the role of educational research and practice in providing opportunities for sustainable peaceful and equitable growth of societies where diversity and diversification under conditions of uncertainty and risk are appreciated the book's contributors show that teacher and school resilience can be promoted through high quality teacher education and nurtured by school leaders at different levels directions for future research are also indicated the book enriches relevant theory and research in the field of teaching teacher professional development teacher education education policy and school leadership

metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences while the cognitive theory of metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the neural theory of metaphor the relevance theory approach the complex systems approach and the dynamic systems approach though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in nlp and machine learning metaphor studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods in current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines metaphor studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from

linguistics to psychology to the theory of science hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation this research topic aims to promote cross fertilization among the many research areas involved in metaphor studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios
