within two years of the success of his first play *die räuber* on the german stage in 1781 schiller wrote a drama based on a rebellion in sixteenth century italy its title the conspiracy of fiesco at genoa a republican tragedy at the head of the conspiracy stood gian luigi de fieschi 1524 1547 schiller s count fiesco a clever courageous and charismatic figure an epicurean and unhesitant egoist politically ambitious but unsure of his aims and principles he is one of schiller s mysterious protean characters who secures both our admiration and disgust with fiesco as tragic hero schiller examines the complex entanglement of morality and politics in his own times that was to preoccupy him throughout his career the play was a moderate success when performed in mannheim in 1784 it was more popular in berlin where during schiller s lifetime it was performed many times in a version by carl plümicke which however radically altered the play s meaning there have been some noteworthy productions on the german stage and television even if it has remained somewhat in the shadow of schiller other works in the english speaking world it is all but unknown and very seldom performed this translation aims to remedy that oversight

this book explores origins manifestations and functions of pan slavism in contemporary central and eastern europe arguing that despite the extinction of pan slavism as an articulated romantic era geopolitical ideology a number of related discourses metaphors and emotions have spilled over into the mainstream debates and popular imagination using the term slavophilia to capture the range of representations the volume analyses how geopolitical

discourses shape the identity and policies of a community providing a comparative analysis that covers a range of slavic countries in order to understand how pan slavism works and resonates across geographic and political contexts

volume i b an outbreak of a respiratory disease first reported in wuhan china in december 2019 and the causative agent was discovered in january 2020 to be a novel betacoronavirus of the same subgenus as sars cov and named severe acute respiratory syndrome coronavirus 2 sars cov 2 coronavirus disease 2019 covid 19 has rapidly disseminated worldwide with clinical manifestations ranging from mild respiratory symptoms to severe pneumonia and a fatality rate estimated around 2 person to person transmission is occurring both in the community and healthcare settings the world health organization who has recently declared the covid 19 epidemic a public health emergency of international concern the ongoing outbreak presents many clinical and public health management challenges due to limited understanding of viral pathogenesis risk factors for infection natural history of disease including clinical presentation and outcomes prognostic factors for severe illness period of infectivity modes and extent of virus inter human transmission as well as effective preventive measures and public health response and containment interventions there are no antiviral treatment nor vaccine available but fast track research and development efforts including clinical therapeutic trials are ongoing across the world managing this serious epidemic requires the appropriate deployment of limited human resources across all cadres of health care and public health staff including clinical laboratory managerial and epidemiological data analysis and risk assessment experts it presents challenges around public communication and messaging around risk with the potential for misinformation and disinformation therefore integrated operational research and intervention learning from experiences across different fields and settings should contribute towards better understanding and managing covid 19 this research topic aims to highlight interdisciplinary research approaches deployed during the covid 19 epidemic addressing knowledge gaps and generating evidence for its improved management and control it will incorporate critical theoretically informed and empirically grounded original research contributions using diverse approaches experimental observational and intervention studies conceptual framing expert opinions and reviews from across the world the research topic proposes a multi dimensional approach to improving the management of covid 19 with scientific contributions from all areas of virology immunology clinical microbiology epidemiology therapeutics communications as well as infection prevention and public health risk assessment and management studies
