Criminologists employ methods from sociology, psychology, law, and other disciplines

to analyze patterns and propose effective interventions. Question 2: Describe the main assumptions of the strain theory of crime. Answer: The strain theory posits that crime occurs when individuals experience a disconnect between societal goals and the means available to achieve them. It assumes that: - Society encourages the pursuit of culturally approved goals (e.g., wealth, success). - Not everyone has equal access to legitimate means (education, employment). - When individuals face blocked opportunities, they experience strain or frustration. - This strain may lead to criminal behavior as an alternative means to achieve success. - The theory emphasizes social structure and inequality as root causes of crime.

Here are some examples: Question 1: Describe the social learning theory and its explanation for criminal behavior. Model Answer: The social learning theory posits that criminal behavior is learned through interactions with others, particularly within peer groups and family. It suggests that individuals acquire attitudes, techniques, and motivations for crime via reinforcement and modeling. For example, a person exposed to delinquent peers may adopt similar behaviors through observation and imitation, reinforced by peer approval or rewards. This theory emphasizes the importance of social environment over innate traits. --- Question 2: Assess the impact of media portrayal of crime on public perceptions and policy. Model Answer: Media portrayal significantly shapes public perceptions of crime, often emphasizing violent and sensational incidents, which can lead to heightened fear and demand for punitive policies. This skewed representation may influence policymakers to adopt harsher sentencing laws or increased policing, sometimes disproportionate to actual crime rates. While media can raise awareness, it can also perpetuate stereotypes, stigmatize certain groups, and undermine community trust. Balanced reporting and public education are essential to ensure policies are evidence-based rather than reactionary. --- The Role of Continuous Learning and Updating Criminology is a dynamic field, with new crime forms and social challenges emerging regularly. Therefore, students must stay updated with recent research, legislation, and societal trends. Regularly reviewing academic journals, attending seminars, and engaging with contemporary debates enhance understanding and readiness for exam questions. --- Conclusion Mastering criminology exam questions and answers requires a comprehensive understanding of core theories, contemporary issues, and practical applications.
