the definitive biography of alain locke the first african american rhodes scholar and harvard phd in philosophy howard university philosophy scholar and architect of the harlem renaissance who mentored a generation of artists including langston hughes and zora neale nurston and promoted the work of african americans as the quintessential creators of american modernism this biography explores his professional and private life including his relationships with white patrons and his lifelong search for love as a gay man

in the election campaign of 2000 al gore and ralph nader polled many millions more

votes than george w bush yet the us left lost out a casualty of the two party system this is a pattern which has been repeated many times over the years the most contentious issues dividing the left in the united states have been those related to the democratic party this book explores the crucial moments in us history where the stranglehold of the two party system was nearly broken presenting a detailed history of labor party politics beginning with henry george s campaign for mayor of new york city in 1886 proceeding to robert la follette s independent presidential campaign of 1924 and the socialist party s relationship to new york s american labor party in the early twentieth century eric chester explores the history of left in america up to and including the nader campaign of 2000 chester identifies key reasons why burgeoning political movements have failed he examines the part played by trade union based political parties he also looks at the inabililty of populist middle class parties to establish ideological or organisational groundings for a viable third party looking to the future chester proposes an alternative drawing on the success of the socialist party at the turn of the last century he lays out ideas for a mass based socialist party as the only way forward towards genuinely independent politics

winner of the barondess lincoln award from the civil war round table of new york fascinating reading this book eerily reflects some of today s key issues the new york times book review from an award winning historian an engrossing look at how abraham lincoln grappled with the challenges of leadership in an unruly democracy an awkward first meeting with u s army officers on the eve of the civil war a conversation on the white house portico with a young cavalry sergeant who was a fiercely dedicated abolitionist a tense exchange on a navy ship with a confederate editor and businessman in this eye opening book elizabeth brown pryor examines six intriguing mostly unknown encounters that abraham lincoln had with his constituents taken together they reveal his character and opinions in unexpected ways illustrating his difficulties in managing a republic and creating a presidency pryor probes both the political demons that lincoln battled in his ambitious exercise of power and the demons that arose from the very nature of democracy itself the clamorous diversity of the populace with its outspoken demands she explores the trouble lincoln sometimes had in communicating and in juggling the multiple concerns that make up being a political leader how conflicted he was over the problem of emancipation and the misperceptions lincoln and the south held about each other pryor also provides a fascinating discussion of lincoln s fondness for storytelling and how he used his skills as a raconteur to enhance both his personal and political power based on scrupulous research that draws on hundreds of eyewitness letters diaries and newspaper excerpts six encounters with lincoln offers

a fresh portrait of lincoln as the beleaguered politician who was not especially popular with the people he needed to govern with and who had to deal with the many critics naysayers and dilemmas he faced without always knowing the right answer what it shows most clearly is that greatness was not simply laid on lincoln s shoulders like a mantle but was won in fits and starts

this book constitutes the revised selected papers of the 37th international workshop on graph theoretic concepts in computer science wg 2011 held at teplá monastery czech republic in june 2011 the 28 revised papers presented were carefully reviewed and selected from 52 submissions the workshop aims at merging theory and practice by demonstrating how concepts from graph theory can be applied to various areas in computer science and by extracting new graph theoretic problems from applications

conventional wisdom suggests that the allies and the soviets were the only side in the second world war to support resistance movements this book shows that hitler had his own version of the soe and the oss and that the nazis too encouraged underground resistance against their enemies especially as europe was liberated in 1944 5
