the previous edition of the international encyclopedia of ergonomics and human factors made history as the first unified source of reliable information drawn from many realms of science and technology and created specifically with ergonomics professionals in mind it was also a winner of the best reference award 2002 from the engineering libraries

recovering lost voices and exploring issues intimate and institutional this sweeping examination of spanish california illuminates indian struggles against a confining colonial order and amidst harrowing depopulation to capture the enormous challenges indians confronted steven w hackel integrates textual and quantitative sources and weaves together analyses of disease and depopulation marriage and sexuality crime and punishment and religious economic and political change as colonization reduced their numbers and remade california indians congregated in missions where they forged communities under franciscan oversight yet missions proved disastrously unhealthful and coercive as franciscans sought control over indians beliefs and instituted unfamiliar systems of labor and punishment even so remnants of indian groups still survived when mexican officials ended franciscan rule in the 1830s many regained land and found strength in ancestral cultures that predated the spaniards arrival at this study s heart are the dynamic interactions in and around mission san carlos borromeo between monterey region indians the children of coyote and spanish missionaries soldiers and settlers hackel places these local developments in the context of the california mission system and draws comparisons between california and other areas of the spanish borderlands and colonial america concentrating on the experiences of the costanoan and esselen peoples during the colonial period children of coyote concludes with an epilogue that carries the story of their survival to the present day
