this is the first detailed explanation of the way british sign language works and is the product of many years experience of research and teaching sign linguistics to deaf and hearing people it assumes no previous knowledge of linguistics or sign language and is not structured around traditional headings such as phonology morphology and syntax instead it is set out in such a way as to help learners and their teachers understand the linguistic principles behind the language there are sections on bsl grammar and also on the use of bsl including social acceptability in signing variation and poetry and humour in bsl technical terms and linguistic jargon are kept to a minimum and the text contains many examples from english bsl and other spoken and sign languages the book is amply illustrated and contains exercises as well as a reading list for further study an accompanying 90 minute dvd is available from talk with sign books to find out more visit talkwithsign.com/linguistics/british-sign-language/p741.html

this first linguistic study of british sign language is written for students of linguistics for deaf and hearing sign language researchers for teachers and social workers for the deaf the author cross refers to american sign language which has usually been more extensively studied by linguists and compares the two languages

interest in british sign language bsl is growing at a fantastic rate and classes for hearing people are mushrooming all over the country this lively introduction to the principles of the language and its vocabulary will therefore be widely welcomed giving a vivid insight into a form of communication that can appear quite difficult for those whose first language is english as the author takes pains to stress bsl is not a mimed version of english equally rich and complex it is visual gestural and spatial able to convey information and subtleties of meaning as fluently as any spoken language once learners have ceased to think in terms of individual words they will come to revel in a language that involves the whole person facial and bodily expression and movement eye contact and gaze lip pattern and the fluid movements of the signs themselves all combining to form an integrated language system with rules of its own using detailed drawings throughout to illustrate the nuances of meaning the author groups the signs according to type introducing each theme and showing how facial expressions hand and finger movements and placements are used and combined to vary the sense of what is being communicated her aim is to equip the reader with a basic understanding of the principles of sign language and a working knowledge of its vocabulary in an ideal world bsl would be part of every school s curriculum whether the pupils were deaf or not thus giving deaf people the status in society which is their right meanwhile this book will make an important contribution to the growing interest in learning the language so that more and more people will appreciate that signs really do make sense

learn british sign language quickly and easily with this essential guide and cd rom this lively guide introduces the key hand shapes and gestures you need to communicate in british sign language the illustrations depict both the actions and facial expressions used to sign accurately while the companion cd rom features real life bsl conversations in action to further your understanding with these practical tools you ll become an expert signer in no time british sign language for dummies includes starting to sign learn about deaf communication and practise simple signs to get you going learning everyday bsl develop the grammar and vocabulary skills that are the building blocks to using british sign language getting out and about sign with confidence in a wide range of real life situations from travelling to dating looking into deaf life learn about the history of the deaf community and how they ve adapted their technology and lifestyles to suit their needs for corrections to this book please click here wiley.com/legacy/wileyblackwell/bslcorrectionslip.pdf note cd files are available to download when buying the ebook version
