collect and present valid and reliable data about programs

this book looks back at the origins of program evaluation by summarizing comparing and contrasting the work of seven major theorists of program evaluation it provides an important perspective on the current state of evaluation theory and provides suggestions for improving its practice

evaluation is a systematic method for collecting analyzing and using data to examine the effectiveness and efficiency of programs and as importantly to contribute to continuous program improvement see appendix a for key definitions cdc has a deep and long standing commitment to the use of data for decision making as well as the responsibility to describe the outcomes achieved with its public health dollars when programs conduct strong practical evaluations on a routine basis the findings can both meet accountability mandates as well as improve program effectiveness in an effort to bring greater consistency to the use of evaluation for these purposes evaluation experts around the agency developed a set of recommendations to inform evaluation planning and implementation the goal is to increase the use of evaluation data for continuous program improvement agency wide these are recommendations and not mandates because our programs vary so much in purpose funding and history it is expected that the leadership of centers divisions and large programs will seriously and systematically consider which of these guidelines and recommendations are most important to improve evaluation capacity and the quality of program evaluations in their own organizations why are these guidelines and recommendations needed although program evaluation has always been a respected component of public health practice the ability to conduct meaningful program evaluations has been constrained by wide differences in expertise resources of programs and commitment to evaluation unfortunately as the accountability environment has intensified at all levels of government public health programs often find themselves unable to make a persuasive case for the efficacy and effectiveness of their programs likewise in an environment of scarce resources we need more and better information about which interventions and approaches of the many options open to us are best suited to the problem strong program evaluation can help us identify our best investments as well as determine how to establish and sustain them as optimal practice while the emphasis is on cdc practice most of these recommendations when implemented will improve the ways in which partners grantees and community based organizations evaluate and improve their program efforts as well

the second edition of handbook of practical program evaluation offers managers analysts consultants and educators in government nonprofit and private institutions a valuable resource that outlines efficient and economical methods for assessing program results and identifying ways to improve program performance the handbook has been thoroughly revised many new chapters have been prepared for this edition including chapters on logic modeling and on evaluation applications for small nonprofit organizations the handbook of practical program evaluation is a comprehensive resource on evaluation covering both in depth program evaluations and performance monitoring it presents evaluation methods that will be useful at all levels of government and in nonprofit organizations

now in its tenth edition this key textbook provides a solid foundation in program evaluation covering the main components of evaluating agencies and their programs how best to address these components and the procedures to follow when conducting evaluations different models and approaches are paired with practical techniques such as how to plan an interview to collect qualitative data and how to use statistical analysis to report results the newly enhanced mission framework returned to throughout

the book helps solidify the seven general areas that program evaluators must consider at all times meeting needs implementation stakeholders side effects improvement focus outcomes nuances and underpinning everything a consideration of diversity and equity key features of this new edition include emphasis on culturally responsive approaches to evaluation equipping students with the skills needed to foster inclusivity social justice and collaboration in their program evaluations a focus on real world preparation with a rich variety of case studies introduced into every chapter along with videos from case study evaluators providing a vital insight into the actual practice of program evaluation accompanied by a rich variety of instructor and student resources including contributions from expert program evaluators and taking a student centred approach from the beginning this is an essential resource for undergraduate and graduate students of program evaluation

evaluation and politics are related in a number of ways while programme evaluators have traditionally tried to be neutral objective and scientific in their assessment of programmes the results of evaluation are inherently political and are used by politicians programme administrators special interest groups and other stakeholders for political purposes the contributors argue that since evaluation cannot be divorced from its political context the political dimension must be understood in order to conduct effective evaluations

the lack of teaching cases in program evaluation is often cited as a gap in the field this ground breaking book fills this gap covering the essentials of program evaluation as it is used in education and with a wide variety of evaluation projects to be discussed analyzed and reflected upon the book covers the essentials of program evaluation including foundation and types of evaluation tools for collecting data writing of reports and sharing of findings individual cases cover classroom instruction community based program teacher training professional development a secondary school based program after school program reading achievement school improvement grant and confidentiality each case is structured to include learning objectives program description evaluation plan summary of evaluation activities and findings key concepts discussion questions class activities and suggested reading as useful for students as it is for evaluators in training program evaluation in practice is a must have for those aspiring to become effective evaluators

the textbook is designed to help readers consider how evaluation can achieve these purposes as in previous editions our book is one of the few to introduce readers to both the different approaches to evaluation and practical methods for conducting it

the second edition of practical program evaluation shows readers how to systematically identify stakeholders needs in order to select the evaluation options best suited to meet those needs within his discussion of the various evaluation types huey t chen details a range of evaluation approaches suitable for use across a program s life cycle at the core of program evaluation is its body of concepts theories and methods this revised edition provides an overview of these and includes expanded coverage of both introductory and more cutting edge techniques within six new chapters illustrated throughout with real world examples that bring the material to life the second edition provides many new tools to enrich the evaluator s toolbox in this eminently readable book chen presents a strong matrix framework for conceptualizing a full range of evaluation strategies and approaches the writing is exceptionally clear accessible to novice evaluators and because it is fair minded and principled of relevance to seasoned evaluators as well jennifer greene university of illinois at urbana champaign professor chen s second edition of practical program evaluation sets a new standard

for providing a variety of systematic frameworks for conducting high quality program evaluations the readers will come away with a detailed understanding of both conventional and cutting edge approaches it is a must read for practicing program evaluators evaluation scholars and students of evaluation stewart i donaldson claremont graduate university chen brings decades of evaluation and experience to this new edition he continues his innovative and pragmatic thinking about evaluation including identifying constructing and testing theories that can work in practice dr chen shows how to blend formative and summative evaluation process and outcome evaluation theory and action and much more r burke johnson university of south alabama dr chen s latest effort offers evaluators a thoughtful expansion on the topics addressed in practical program evaluation 2005 in terms of program theory logic modeling and his evaluation typology new chapters gleaned from the field reveal solution sets for overcoming challenges in a variety of contexts while still balancing scientific and stakeholder needs this new work provides a solid foundation for the further development of an evaluator s acumen gregg m gascon ohio state university chen has the best conceptual framework and the quality of his writing and analysis are superb he takes the reader through the essential steps in evaluation with particularly valuable treatment of stakeholder involvement mario a rivera university of new mexico

mohr covers impact analysis a tool of programme evaluation to estimate the difference between observed programme results and the results that would have occurred in the absence of the programme he offers coverage of systematic ways to find the proper goals to use in single and multiple outcome evaluations some knowledge of regression analysis is assumed
