la literatura es el arte que se vale del lenguaje natural como
medio al igual que el arte de la pintura usa pigmentos y el de
la escultura la piedra puede ser también una forma de
comunicación y de educación en los valores de una comunidad o
un medio para apoyar o para denunciar determinadas situaciones
socioeconómicas y políticas el arte literario puede
proporcionar placer y entretenimiento pero también ansiedad y
desasosiego es capaz de despertar conciencias y suscitar
rebeldías pero igualmente puede manipular la realidad y
adormecer mediante la evasión a las clases desfavorecidas la
literatura como expresión artística de la comunidad humana
nace siempre de las condiciones materiales de una sociedad
pero al mismo tiempo constituye la expresión cultural más
elevada de la espiritualidad humana otros seres animales son
capaces de comunicar mensajes sobre la realidad a veces
incluso sofisticados por diferentes medios pero el ser humano
es el único animal de la biosfera que ha convertido en un arte
la comunicación verbal de mensajes ficticios cuando los
rétoros romanos distinguieron tres funciones principales para
la literatura instruir deleitar y conmover acertaron pero al
mismo tiempo se quedaron cortos

for sophomore courses on digital design in an electrical
engineering computer engineering or computer science
department digital design fourth edition is a modern update of
the classic authoritative text on digital design this book
teaches the basic concepts of digital design in a clear
accessible manner the book presents the basic tools for the
design of digital circuits and provides procedures suitable
for a variety of digital applications

this innovative edited volume places global urbanism in the
context of the phenomenal growth of cities of the south
investigating their colonial contentiousness and asking how
their history plays out in the twenty first century phenomenon
of urbanisation inspired by antonio gramsci's reflections on
the problem of the south it shows that the question of
southern urbanism is about the anomalies and growth of
southern cities the histories of struggles technological and

logistical reorientations new zoning practices of neoliberal capitalism and the remaking of urban geographies towards a possible urban future that aims to be just crucially it asks whether today's city is a seamless formation of several overlapping phases of growth or if there is a decisive break today marked by the hyper growth of these cities to understand the implications of these questions for visions of an urban future this volume takes a number of southern cities of asia and europe as case studies including kolkata mumbai chittagong beirut athens naples and marseille it shows how these cities are paradoxically marked by both fractured geographies and new types of popular mobilisations solidarities and an ethic of protection and care showing this to be the core of the southern question constituting the urban experience of our time it will appeal to advanced level students and scholars with interests in urban sociology southern urbanisation postcolonial studies political science political economy and urban geography
