at his 1994 inauguration south african president nelson mandela announced the
rainbow nation at peace with itself and the world this national rainbow notably extended
beyond the bounds of racial coexistence and reconciliation to include sexual orientation
as a protected category in the bill of rights yet despite the promise of equality and
dignity the new government's alliance with neoliberal interests and the devastation of
the aids epidemic left south africa an increasingly unequal society prismatic
performances focuses on the queer embodiments that both reveal and animate the
gaps between south africa's self image and its lived realities it argues that performance
has become a key location where contradictions inherent to south africa's post
apartheid identity are negotiated the book spans 30 years of cultural production and
numerous social locations and includes a team of black lesbian soccer players who
reveal and redefine the gendered and sexed limitations of racialized africaness white
gay performers who use drag and gender subversion to work through questions of racial
and societal transformation black artists across the arts who have developed aesthetics
that place on display their audiences complicity in the problem of sexual violence and a
primarily heterosexual panafrican online soap opera fandom community who by
combining new virtual spaces with old melodramatic tropes allow for extended
deliberation and new paradigms through which african same sex relationships are
acceptable prismatic performances contends that when explicitly queer bodies emerge
onto public stages audiences are made intimately aware of their own bodies
identifications and desires as the sheen of the new south africa began to fade these
performances revealed the inadequacy and indeed the violence of the rainbow nation as
an aspirational metaphor simultaneously they created space for imagining new radical
configurations of belonging
