as of yet the remarkable and highly influential textual form of euclidean mathematics has not been considered from a literary aesthetic perspective by its extreme

standardization and seeming non-literariness it appears to defy such an approach this book nonetheless attempts precisely a literary aesthetic study of the language and style of Euclid's Elements focusing on Book I it aims to find out what is literary about the form and what motivates this form as form in doing so it employs the concept of clarity asking how is the textual form related to logical and communicative clarity that is how far is the omnipresent standardization necessary for the accomplishment and successful communication of the proofs based on a close analysis of the standardization at all levels of the text lexicon grammar structure and especially diagram it argues that the textual form of the Elements is standardized beyond logical communicative purposes and that it is in this sense aesthetic the book exposes the unexpected literary dimension of Euclid's Elements provides a new interpretation of the peculiar form of the work and offers a model for determining the role of clarity not only in Greek theoretical mathematics

this book constitutes the joint refereed proceedings of the three workshops held in conjunction with the 7th international conference on information systems wis 2006 in Wuhan China in October 2006 a total of 90 papers were submitted to the three workshops and 31 revised full papers were carefully selected for presentation the workshop on information access and digital library wiadl 2006 which aims at improving and facilitating information access by using digital libraries included 14 out of 41 submissions the workshop on based massive data processing wmdp 2006 accounted for 13 papers from 39 papers submitted it discusses how to effectively and efficiently collect extract store index query and analyze massive data that has been accumulated in many web-based applications such as deep applications and search engines the workshop on advances in based learning included 4 presentations selected from 10 submissions new ideas on based learning are presented using the to access vast amount of information and resources that allow implementing a range of new teaching and learning practices
