an outline history of the world by h a davies is a sweeping chronicle of human history encompassing the grand narrative from the ancient world to the cusp of the 20th century originally published in 1928 davies tome remains an impressive feat of historical synthesis offering a concise and objective overview of the major events empires cultures and figures that have shaped our world the book unfolds chronologically taking readers on a captivating journey through the rise and fall of civilizations the ebb and flow of political power and the transformative forces of social and cultural evolution from the majestic pyramids of egypt to the bustling marketplaces of medieval china davies paints a vivid picture of the tapestry of human experience across continents and millennia davies approach is characterized by a commitment to factual accuracy and a balanced perspective he avoids getting bogged down in excessive details instead opting for a clear and concise presentation of the most significant historical developments this makes an outline history of the world an ideal starting point for anyone seeking a comprehensive understanding of the past whether they are seasoned history buffs or curious newcomers while davies focus is primarily on political and social history he also recognizes the importance of cultural and technological advancements in shaping the course of human civilization the book delves into the intellectual achievements of ancient greece the artistic splendor of the renaissance and the scientific breakthroughs that ushered in the modern era

of the people a concise history of the united states not only tells the history of america of its people and places of its dealings and ideals but it also unfolds the story of american democracy carefully marking how this country s evolution has been anything but certain from its complex beginnings to its modern challenges this comprehensive survey focuses on the social and political

lives of people some famous some ordinary revealing the compelling story of america s democracy from an individual perspective from across the landscapes of diverse communities and ultimately from within the larger context of the world the concise edition tells the same great story but with fewer words and images maintaining the structure the features and maps of the comprehensive edition this concise version has been thoughtfully condensed paragraphs now contain trimmed sentences and a reduced number of examples thus leaving the book s core content and compelling narrative unchanged

history book

this unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day relying on written records from as far back as 2400 bce and using sources ranging from the bible to security council resolutions the author pieces together the history of a subject which is almost as old as civilisation itself the author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict thus it is that this work is divided into three substantial parts volume 1 on the laws affecting combatants and captives volume 2 on civilians and volume 3 on the law of arms control this second book on civilians examines four different topics the first topic deals with the targetting of civilians in times of war this discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace the second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition the third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred the final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition as a work of reference this set of

three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare it also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself
