home trailers drive ins barbecues beach life and surfing sports from polo and tennis  
and golf to mountain climbing and skiing sportswear a word coined at the time and sun  
suits were all a part of the good life perhaps california s most distinctive influence of  
the 1930s in the dream endures kevin starr shows how the good life prospered in  
california in pursuits such as film fiction leisure and architecture and helped to define  
american culture and society then and for years to come starr previously chronicled  
how californians absorbed the thousand natural shocks of the great depression  
unemployment strikes communist agitation reactionary conspiracies in endangered  
dreams the fourth volume of his classic history of california in the dream endures starr  
reveals the other side of the picture examining the newly important places where the

good life flourished like los angeles where hollywood lived palm springs where hollywood vacationed san diego where the navy went the california institute of technology in pasadena where einstein went and changed his view of the universe and college towns like berkeley we read about the rich urban life of san francisco and los angeles and in newly important communities like carmel and san simeon the home of william randolph hearst where each thursday afternoon automobiles packed with hollywood celebrities would arrive from southern california for the long weekend at hearst castle the 1930s were the heyday of the hollywood studios and starr brilliantly captures hollywood films and the society that surrounded the studios starr offers an astute discussion of the european refugees who arrived in hollywood during the period prominent european film actors and artists and the creative refugees who were drawn to hollywood and southern california in these years igor stravinsky arnold schoenberg man ray bertolt brecht christopher isherwood aldous huxley thomas mann and franz werfel starr gives a fascinating account of how many of them attempted to recreate their european world in california and how others like samuel goldwyn provided stories and dreams for their adopted nation starr reserves his greatest attention and most memorable writing for san francisco for starr despite the city's beauty and commercial importance san francisco's most important achievement was the sense of well being it conferred on its citizens it was a city that magically belonged to everyone whether discussing photographers like edward weston and ansel adams hard boiled fiction writers or the new breed of female star marlene dietrich jean harlow bette davis carole lombard and the improbable mae west the dream endures is a brilliant social and cultural history in many ways the most far reaching and important of starr's california books

in this important book nicholas hartlep and daniel scott's detailed analyses on both visual and historical representations of asian americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about asian

americans as hartlep and scott write asian americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the blacks for their underachievement and their fight for equality over and over again the media has been telling a single story about asian americans to the public for the past fifty years the consequence of this fabricated story is that it discourages others even asian americans themselves from believing in the validity of their struggles linshi 2014 p 1
