business ethics is a form of the art of applied ethics that examines ethical rules and principles within a commercial context the various moral or ethical problems that can arise in a business setting and any special duties or obligations that apply to persons who are engaged in commerce business ethics can be both a normative and a descriptive discipline as a corporate practice and a career specialisation the field is primarily normative in academia descriptive approaches are also taken the range and quantity of business ethical issues reflects the degree to which business is perceived to be at odds with non economic social values historically interest in business ethics accelerated dramatically during the 1980s and 1990s both within major corporations and within academia for example today most major corporate websites lay emphasis on commitment to promoting non economic social values under a variety of headings e g ethics codes social responsibility charters in some cases corporations have redefined their core values in the light of business ethical considerations catching business ethics in action however remains a seldom spotted nugget for in reality it depends on the characters of the characters

a contemporary look at business ethics examines current and future challenges in business ethics emphasizing the need for ethical leadership it analyzes real world ethical scandals while discussing topics such as ethical decision making the role of religion and spirituality and the impact of scandals on employees

international business ethics challenges and approaches edited by georges enderle is a pioneer in this widely uncharted field of international business ethics this volume includes the work of 39 contributors half of them from non western countries first presented at the first world congress of business economics and ethics hosted by reitaku university and the institute of moralogy in japan together their articles paint an extraordinarily rich multidisciplinary picture of international business ethics as it evolves and delineate the contours of how international business ethics may develop at the turn of the millennium

business ethics originated in the united states as an offshoot of theoretical ethics and as part of a movement in applied ethics that was initiated with medical ethics although a few small religious based colleges and universities offered courses in business ethics just after the second world war business ethics as an academic eld developed most seriously in many universities in the early 1970s the eld of medical ethics was well developed by then and it was a natural step to think about ethical issues in business as well there was also a public reaction to a number of corporate scandals e g price xing the lockheed japanese bribery allegations the goodyear airbrake scandal etc that encouraged universities to begin teaching the subject business ethics as an academic eld was originally developed by philosophers most of whom had come out of the analytic or anglo american philosophical tra tions and who had been trained in classical ethics on aristotle kant mill bentham and perhaps dewey the resulting eld then has been dominated by this thinking although to date there are over 50 textbooks in business ethics most textbooks in business ethics do not take into account contemporary continental philosophy although marxism is sometimes taught in these courses other more contemporary continental thinkers who could contribute substantially to the eld have been nored this phenomenon is iterated in the professional journals and in theoretical books on the topic

this text provides an up to date critical analysis of contemporary issues in business ethics the authors begin with an overview of the major broad themes in business ethics then move to a more practical discussion of ethics in key management functions the second edition of the ethical business has been updated to address current thinking and new problems faced with new chapters focusing on the symbiotic relationship between business and the environment and new case studies an essential core text for today s business students bringing ethical dilemmas into context to provide the foundation of good management practice

this anthology offers a fresh approach to the ethics of business casting a critical eye on entrenched assumptions and practices it includes central works from such thinkers as john locke karl marx milton friedman naomi klein and thomas piketty while also introducing new voices on a range of pressing practical topics including racial discrimination in the workplace factory farming climate change affirmative action and whistleblowing a truly applied anthology this book encourages students to see the real world applications of the theories at issue and to examine the consequences of business as usual
