she demonstrates instead that Kahn's architecture is grounded in his deeply held modernist political social and artistic ideals
which guided him as he sought to rework modernism into a socially transformative architecture appropriate for the postwar
world

this book is about the love and hate relations that humans establish with their habitat which have been coined by discerning modern thinkers as topophilia and topophobia whilst such affiliations with the topos our manmade as well as natural habitat have been traced back to antiquity a wide range of twentieth century cases are studied here and reflected upon by dwelling on this framework the book provides a timely reminder that the qualitative aspects of the topos sensual as well as intellectual should not be disregarded in the face of rapid technological development and the mass of building that has occurred since the turn of the millennium topophilia and topophobia offers speculative and historical reflections on the human habitat of the century that has just passed authored by some of the world s leading scholars and architects including joseph rykwert yi fu tuan vittorio gregotti and jean louis cohen human habitats ranging broadly from the cities of the twentieth century highbrow modern architecture both in western countries and in asia to non architect planner designed vernacular settlements and landscapes are reviewed under the themes of topophilia and topophobia across the disciplines of architecture landscape studies philosophy human geography and urban planning

marking the centennial of the 1916 establishment of a professional program pedagogy and place is the definitive text on the history of the yale school of architecture robert a m stern current dean of the school and jimmy stamp examine its growth and change over the years and they trace the impact of those who taught or studied there as well as the architecturally significant buildings that housed the program on the evolution of architecture education at yale owing to the impressive number of notable practitioners who have attended or been affiliated with the school this book also contributes a history beyond yale of the architecture profession in the twentieth century featuring extensive archival research and illuminating firsthand accounts from alumni faculty and administrators this well rounded and engaging narrative is richly illustrated with historic photos of the school and its studios images of student work and important architectural achievements on and off campus

architecture post mortem surveys architecture s encounter with death decline and ruination following late capitalism as the world moves closer to an economic abyss that many perceive to be the death of capital contraction and crisis are no longer

mere phases of normal market fluctuations but rather the irruption of the unconscious of ideology itself post mortem is that historical moment wherein architecture's symbolic contract with capital is put on stage naked to all architecture is not irrelevant to fiscal and political contagion as is commonly believed it is the victim and penetrating analytical agent of the current crisis as the very apparatus for modernity's guilt and unfulfilled drives modernity's debt architecture is that ideological element that functions as a master signifier of its own destruction ordering all other signifiers and modes of signification beneath it it is under these conditions that architecture theory has retreated to an alamo of history a final desert outpost where history has been asked to transcend itself for architecture's hoped for utopia always involves an apocalypse this timely collection of essays reformulates architecture's relation to modernity via the operational death drive architecture is but a passage between life and death this collection includes essays by kazi k ashraf david bertolini simone brott peggy deamer didem ekici paul emmons donald kunze todd mcgowan gevork hartoonian nadir lahiji erika naginski and dennis maher

for years following reunification berlin was the largest construction site in europe with striking new architecture proliferating throughout the city in the 1990s and early 2000s among the most visible and the most contested of the new projects were those designed for the national government and its related functions berlin contemporary explores these buildings and plans tracing their antecedents while also situating their iconic forms and influential designers within the spectacular world of global contemporary architecture close studies of these sites including the reichstag the chancellery and the reconstruction of the berlin stadtschloss now known as the humboldt forum demonstrate the complexity of berlin's political and architectural rebuilding and reveal the intricate historical negotiations that architecture was summoned to perform

at a time when american political and cultural leaders asserted that the nation stood at the center of world awareness thinkers and artists sought to understand and secure principles that lay at the center of things from the onset of the cold war in 1948 through 1963 they asked what defined the essential character of american culture could permanent moral standards guide human conduct amid the flux and horrors of history in what ways did a stable self emerge through the life cycle could scientific method rescue truth from error illusion and myth are there key elements to democracy to the integrity

of a society to order in the world answers to such questions promised intellectual and moral stability in an age haunted by the memory of world war and the possibility of future devastation on an even greater scale yet other key figures rejected the search for a center asserting that freedom lay in the dispersion of cultural energies and the plurality of american experiences in probing the centering impulse of the era at the center offers a unique perspective on the united states at the pinnacle of its power

kenosis creativity architecture locates and explores creativity's grounding in the ancient concept of kenosis the emptying that allows creativity to happen that makes appearance possible it concretises that grounding through architecture a primal expression of human creativity critically examining for the first time kenotic instantiations evidenced in four iconic international projects works by kahn pei ando and libeskind then in a final turn the potentiality of architecture's own emptying is probed architect and author randall lindstrom draws on western and eastern philosophy including that of heidegger levinas derrida vattimo nishida and nishitani as well as on the theology of christianity judaism and aspects of buddhism hinduism and islam every chapter expands the argument that if responsiveness to our world is taken seriously if proper and sustainable responses are to be realised then a deeper understanding of creativity and so kenosis is essential this book opens up a way of thinking about creativity and humanity's readiness to be creative it thereby presents a crucial enquiry at the nexus of architecture philosophy and theology for researchers graduate and postgraduate students and practitioners alike

this study examines the influence of perspective on architecture highlighting how critical historical changes in the representation and perception of space continue to inform the way architects design since its earliest developments perspective was conceived as an exemplary form of representation that served as an ideal model of how everyday existence could be measured and ultimately judged temple argues that underlying the symbolic and epistemological meanings of perspective there prevails a deeply embedded redemptive view of the world that is deemed perfectible temple explores this idea through a genealogical investigation of the cultural and philosophical contexts of perspective throughout history highlighting how these developments influenced architectural thought this broad historical enquiry is accompanied by a series

of case studies of modern or contemporary buildings each demonstrating a particular affinity with the accompanying historical model of perspective

includes special issues and extra issues
