consumer behaviour satisfies the need for a comprehensive accessible and contemporary textbook which gives significant weighting to issues

this timely volume discusses the much debated and controversial subject of the presence of religion in the public sphere the book is divided in three sections in the first the public private distinction is studied mainly from a theoretical point of view through the contributions of lawyers philosophers and sociologists in the following sections their proposals are tested through the analysis of two case studies religious dress codes and places of worship these sections include discussions on some of the most controversial recent cases from around europe with contributions from some of the leading experts in the area of law and religion covering a range of very different european countries including turkey the uk italy and bulgaria the book uses comparative case studies to illustrate how practice varies significantly even within europe it reveals how familiarization with religious and philosophical diversity in europe should lead to the modification of legal frameworks historically designed to accommodate majority religions this in turn should give rise to recognition of new groups and communities and eventually a more adequate response to the plurality of religions and beliefs in european society

to many outside observers of the israeli palestinian conflict there would appear to be one eminently sensible solution in exchange for recognition and adequate security guarantees israel should return the west bank and the gaza strip subject to minor boundary modifications to the palestinians led by a moderate plo the palestinians would then

exercise their right to self determination and establish an independent state with or without a link to jordan and yet this solution has found favor neither with successive israeli governments nor with the plo first published in 1985 israel and the creation of a palestinian state now with a new preface by the author analyses the reasons for the rejection of this solution by the protagonists it then sets up a vision of a possible solution which by taking account of the subjective fears and aspirations of the parties may be regarded as more feasible the author s vision draws inspiration from the experience of reconstructing a new transnational order in europe after the ravages of the second world war the underlying theme focuses on the limitations of the purely national context as a framework for resolving the current political problems of the israeli palestinian dilemma

this book provides readers with a comprehensive understanding of the complex field of modern management with a rich focus on europe s socio economic context an accessible and unique introduction to management it is an ideal starting point for students of international business leadership organizational studies and diversity management

consumer behaviour is the first truly european consumer behaviour textbook placing the subject clearly within its economic psychological sociological and historical context the authors provide greater insight for readers by examining both the determinants and the consequences of consumer decision making antonides and van raaij include numerous examples cases and sociodemographic data and provide complete coverage of core topics together with important new ones innovative chapters are included on financial behaviour welfare wellbeing and property families and household production consumption and the environment shopping behaviour the authors explore the full consumption cycle not only the first stages of orientation and procurement but also the usage and disposal of products consumer behaviour is ideal for both undergraduate and postgraduate students it will also benefit non european students who need to gain a wider understanding of consumer behaviour marketers market researchers public relations officers and government officials dealing with consumer policy will also find it extremely useful

behavioural sciences help refine our understanding of human decision making their insights are immensely relevant for policy making since public intervention works much better when it targets real people rather than imaginary beings assumed to be perfectly rational increasingly governments around the world are keen to rely on those insights for reshaping public interventions in a wide range of policy areas such as energy health financial services and data protection when policy making meets behavioural sciences effective and low cost regulations can emerge in the form of default rules smart disclosure and simplification requirements while behaviourally informed intervention has a huge potential for policymaking it also attracts legitimacy and practicability concerns nudge and the law takes a european perspective on those issues and explores the legal implications of the emergent phenomenon of behavioural regulation by focusing on the challenges and opportunities it may offer to eu policy making and beyond
