debates on the end of life controversy are complex because they seem to hijack national and cultural traditions where previous books have focused on ideological grounds the politics of intimacy explores dying as the site where policies are negotiated and implemented intimacy comprises the emotional experience of the end of life and how we acknowledge it or not through institutions this process shows that end of life controversy relies on the conflict between the individual and these institutions a relationship that is the cornerstone of western liberal democracies through interviews with mourners stakeholders and medical professionals examination of media debates in france and the czech republic durnová shows that liberal institutions in their attempts to accommodate the emotional experience at the end of life ultimately fail she describes this deadlock as the politics of intimacy revealing that political institutions deploy power through collective acknowledgment of individual emotions but fail to maintain this recognition because of this same experience

how media ownership matters provides a roadmap to understanding how variable forms of ownership are shaping the future of journalism and democracy through a comparative analysis of the us sweden and france this book maps and analyzes four ownership

models market private civil society and public highlighting the effects of organizational logics funding and target audiences on the content of news the authors identify both the strengths and weaknesses various forms of ownership have in facilitating journalism that meets the democratic ideals of reasoned critical and inclusive public debate

political economy debates have focused on the internationalisation of private capital but foreign states increasingly enter domestic markets as financial investors how do policy makers in recipient countries react do they treat purchases as a threat and impose restrictions or see them as beneficial and welcome them what are the wider implications for debates about state capacities to govern domestic economies in the face of internationalisation of financial markets in response foreign states in domestic markets have developed the concept of internationalised statism where governments welcome the use of foreign state investments to govern their domestic economies these foreign state investments are applied to the most prominent overseas state investors sovereign wealth funds swfs many swfs are from asia and the middle east and their number and size have greatly expanded reaching 9 trillion by 2020 this book examines policies towards non western swfs buying company shares in four countries the us uk france and germany although the us has imposed significant legal restrictions the others have pursued internationalised statism in ways that are surprising given both popular and political economy classifications this book argues that the policy patterns found are related to domestic politics notably the preferences and capacities of the political executive and legislature rather than solely economic needs or national security risks the phenomenon of internationalised statism underlines that overseas state investment provides policy makers in recipient states with new allies and resources the study of swfs shows that internationalisation and liberalisation of financial markets offer national policy makers opportunities to govern their domestic economies
