despite the power and consistency of these universal laws why is it that some people still struggle to apply them in their daily lives why can it sometimes be difficult to apply these manifestation techniques in a way that yields consistent results every single time no matter what we ask for if these universal laws are as precise as the laws of physics then shouldn t they work one hundred percent of the time without fail for every single person on this planet if you have asked these questions at some point in your spiritual journey you re in for a real treat join bestselling author and spiritual explorer richard dotts as he returns with his latest and most anticipated book for this year getting into manifestation zone a radical way to manifest 24 7 in getting into manifestation zone dotts puts forth the radical premise that our results are inconsistent not because these universal laws do not work reliably all of the time rather it is because these universal laws are unseen and most people do not have an accurate conceptual representation of how they work as a result an individual can live his entire life not understanding the powerful nature of these unseen spiritual forces and how to tap into them the solution then according to dotts is to conceptualize these universal laws in a way such that they become visible to us in his usual trademark style richard walks readers through a radical framework that allows us to clearly visualize the inner workings of these universal laws more

importantly richard shows everyone how to know where they stand in relation to these universal laws and hence foresee the future they are about to create as richard explains an accurate visualization of these universal laws is the first step when we have an accurate framework through which to perceive these laws we turn these ethereal and unseen forces into something tangible and instantly perceivable by our senses by cultivating a moment to moment awareness of where we stand in relation to these universal laws we are able to focus our energies and manipulate these unseen forces in a precise manner that yields results every single time in getting into manifestation zone richard presents a completely new framework for manifestations that allows one to accurately visualize these spiritual principles for themselves once an understanding and internalization of this framework is complete the reader is taken through a series of exercises based on this framework to create an alternate reality for himself the framework also answers many age old questions about applying these spiritual techniques to create physical manifestations such as why is it that most people find it so difficult to create a new desired reality the framework explains why most people perpetuate their existing realities by default unless they know the right way to break out of this unconscious way of living how did the spiritual masters throughout the ages create seeming miracles and manifestations out of thin air the framework explains how they are able to do so by immersing themselves entirely in the spiritual dimension and staying there how can you spend most of your time in the spiritual dimension and yet function effectively as a physical being in this modern world and more

what is the power of manifestation and how do we unlock this force within us evon davis the author of pandora s box defines the power of manifestation as the expansion of one s consciousness into the greater realm of possibilities the power of manifestation resides within each and every one of us and is awakened through a variety of techniques such as creative visualization chakra balancing and alignment an understanding of the true nature of the universe and our capacities as powerfully creative beings are you ready to become the master of your own destiny if so read on this book tells us how we can begin to break out of old self defeating self sabotaging patterns and make a profound paradigm shift in our thinking it is amazing what we can create in our lives if we are open to the possibilities but first we need to understand the way our minds work in conjunction with the universe and the world around us this is an understanding of our place in the world that is fairly modern our minds are opening up to a new paradigm it is all about realizing our power and taking an active role in creating our lives and communities rather than feeling resigned to being helpless victims of circumstance the current paradigm shift is comparable to that which occurred when people began to understand that the planet was not flat it is as radical and fundamental a shift as that which occurred when galileo proclaimed that the earth was not the center of the

universe we might wonder what other surprises lay ahead and i think we will be pleased by what we discover one of the factors underlying this current paradigm shift is the knowledge gained by scientists through their study of quantum physics a quanta is a unit of energy quantum physics is the study of subatomic energy and matter the most remarkable discovery has been that at the subatomic level energy acts as waves of probabilities until observed by a conscious observer then those waves of probability collapse into particles in other words we are literally creating reality by where we choose to focus our attention what can we conclude from this that we are powerful creators we are co creating this reality along with the universe other humans and other conscious life forms do not doubt the power within yourself to create the life you want and the world you live in that is the most important first step in understanding how powerful you really are the ground of being is consciousness so the universe itself is formed out of consciousness we humans are consciousness swimming in consciousness we can see very clearly that we are powerful creators and the more we begin to recognize this the more powerful and creative we will become so the key is the recognition of our powerful creative abilities understanding your way of viewing the world and your place in it is one of the first steps to creating a new way of viewing the world and your place in it you can take a more pro active and creative roll but first you will need to truly get clear on what it is you want and understand the conflicting desires and beliefs that create obstacles it s important to understand the powerful role that your mind plays in the creation of your life which includes setting and attaining goals changing your perceptions about your life and the world can be important if they are holding you back from creating the kind of life that you want one that includes meaningful creative and fulfilling work and the freedom to enjoy your life it is important to explore the nature of reality and the nature of your thinking and to scrutinize it with utmost honesty if you want to change your life it is necessary to change your thinking the important thing for us to realize is that we are the creators we can sleep walk our way through life and feel like the victim of circumstances or we can take an active role in creating what we want
