this important timely publication is a photographic guide which facilitates recognition of
poisonous fungi and treatment methods the authors of this full color atlas maintain that the best
protection against poisoning by fungi is a detailed knowledge of the fungi themselves the recent
surge of interest in collecting fungi makes this thorough and beautiful illustrated synthesis of
current knowledge of their dangers especially timely it includes information on the culinary
preparation of fungi and how to deal with cases of poisoning it presents in detail fungal
taxonomy chemistry pharmacology toxicology and medicine the information assists readers in
understanding the toxic substances present in each case the degree of toxicity of each fungus
and likely effects on the victim this informative volume is important for accident and
emergency doctors and nurses general practitioners and physicians pharmacologists pharmacists
toxicologists poison control center personnel and biologists

my aim in this introductory text is to present a comprehensible discussion of certain technical
topics and recent developments in color science that i believe are of real interest to artists and
designers i treat a number of applications of this knowledge for example in selection and use of

colorants pigments and dyes and light early in the book i discuss what color is and what its characteristics are this is followed by a chapter on pertinent aspects of light light as the stimulus that causes the perception of color then the subject of the colors of opaque and transparent nonfluorescent and fluorescent materials is taken up there are sections on color matching color mixture and color primaries chapter 6 introduces the basic ideas that underlie the universal method cie of color specification later chapters show how these ideas have been extended to serve other purposes such as systematic color naming determining complementary colors mixing colored lights and demonstrating the limitations of color gamuts of colorants the munsell and the ostwald color systems and the natural colour system sweden are explained and the new uniform color scales optical society of america are described color specification itself is a broad topic the information presented here is relevant in art and design for those who work with pigments and dyes or with products that contain them such as paints printing inks plastics glasses mosaic tesserae etc

this work traces the history of the corvinus press and also offers a bibliography of its contents including ephemera apocrypha a list of typefaces used in the corvinus books and a list of the press s devices with facsimiles the story of george borrow s the bible in spain is also told
