the authors focus on the problem of sustainability from the standpoint of corporate
management in this book they propose that sustainability management not only
earns profits but also fulfills social responsibilities while considering the environment
people and society and enables management to continue to have the potential to
survive in the future in that sense it is also related to the sustainability development
goals to fulfil this aim the authors focus on how companies should implement
sustainability management through considering both the theoretical aspects and
practical aspects of actual companies from a theoretical perspective the authors
consider the construction of a business model that achieves both economic and
social value the implementation method of governance control and the performance
evaluation method from a practical perspective the current state of sustainability
management in japanese companies is analysed by focusing on the cases of two
manufacturing companies and two service companies in addition since cooperation
with other companies and other organizations is necessary for implementation the
authors explore the ideal form of cooperation between companies and cooperation
between the private sector and local governments

book cd to improve on an award winning book poses a major challenge to its authors the authors of this book took the challenge head on by conducting a major research study to determine what exactly the outcomes are that managers at different levels must deliver in contemporary organisations in south africa and the rest of africa the findings of this study which dealt with current and near future management issues as well as classical and contemporary thinking about management were used as the blueprint for the updating of this book after placing management in context the authors deal with the knowledge skills and dispositions required of managers to perform the management functions of planning organising leading and controlling in a volatile business world examples of how the functions are applied in practice are cited throughout the book these examples refer mainly to

south african organisations and situations that managers in south africa and africa have to deal with to create and sustain a competitive advantage for their organisations the book endeavours to break down the silo effect of seeing the management functions as separate activities this is done by continuously placing the management function at hand in a bigger context this enables learners of management to assess the implications of management decisions on different people processes systems and so on that make up the organisation

this is an open access book in an era marked by unprecedented global challenges such as climate change resource depletion and growing socio economic inequalities the imperative for sustainable practices has never been greater the 6th international conference on multidisciplinary research in management and economics icmrme aims to serve as a nexus for innovative research and collaborative dialogue centered on sustainability hosted by emaa business school in the dynamic city of agadir morocco the conference will convene leading academics practitioners and policymakers to explore strategies that foster resilience adaptability and sustainable growth in economic and managerial contexts with a focus on addressing pressing issues like ecological preservation ethical governance and digital transformation in the era of ai icmrme 2025 is committed to generating actionable insights that align with the united nations sustainable development goals sdgs the global urgency to transition to sustainable systems is not isolated from existing socio economic complexities current crises including the economic disruptions caused by geopolitical conflicts and environmental catastrophes highlight the need for robust multidisciplinary approaches this conference seeks to illuminate pathways toward a sustainable future while acknowledging the intricate interplay between innovation policy frameworks and human centric strategies

this book examines how indigenous peoples around the world are demanding greater data sovereignty and challenging the ways in which governments have historically used indigenous data to develop policies and programs in the digital age governments are increasingly dependent on data and data analytics to inform their

policies and decision making however indigenous peoples have often been the unwilling targets of policy interventions and have had little say over the collection use and application of data about them their lands and cultures at the heart of indigenous peoples demands for change are the enduring aspirations of self determination over their institutions resources knowledge and information systems with contributors from australia aotearoa new zealand north and south america and europe this book offers a rich account of the potential for indigenous data sovereignty to support human flourishing and to protect against the ever growing threats of data related risks and harms the open access version of this book available at [taylorfrancis.com/books/e/9780429273957](https://www.taylorfrancis.com/books/e/9780429273957) has been made available under a creative commons attribution non commercial no derivatives 4.0 license

public managers can to a certain extent choose between various management paradigms which are provided by public and business administration scholars and by politicians as well how do they find their way in this confusing supermarket of competing ideas this book explores how public managers in western bureaucracies deal with the mutually undermining ideas of hierarchical network and market governance do they possess a specific logic of action a rationale when they combine and switch between these governance styles this chapter sets the scene for the book as a whole and presents the search topic and the research question 1.1 problem setting since the second world war western public administration systems have changed drastically the hierarchical style of governing of the 1950s to the 1970s was partly replaced by market mechanisms from the 1980s onwards in the 1990s a third style of governing based on networks further enriched the range of possible steering coordination and organisation interventions in the new millennium public sector organisations seem to apply complex and varying mixtures of all three styles of what we will find as governance in a broad sense this development has brought about two problems

nothing is static business models strategies and organizations change due to external forces internal developments and managerial decisions going beyond universal best practice this text presents the right practice for managing a business trajectory and winning consistently over time

examines the conflict surrounding public land management revealing how problematic language in public land laws scarcity of resources and mistrust cloud the debates and offering a range of solutions to help move beyond the dysfunctional status quo management
