the international bestseller is there anything more cut throat than global politics wherever you turn europe russia china korea

syria the middle east we are living in a time of global geopolitical power plays once an insider to this closed world pedro banos reveals that however it might be smoothed over by the pr of political diplomacy the world of geopolitics is one of war and conflict by strategic means where countries have sought dominion and power over their rivals since the dawn of time banos presents this high stakes game as a series of 22 universal rules on how to act and exert influence in the international sphere each principle is contextualised in both classical and modern history from bismarck to kissinger but also related to the current world of trump putin and xi jinping with titles like kicking away the ladder the tower of champagne glasses the madman and the mule and the saddlebags how they rule the world is a practical set of rules for engagement that can be enjoyed by anyone written with the philosophic aphoristic timelessness of a von bulow sun tzu or machiavelli banos has created an utterly gripping manual on the secrets of how strategic power really works

written specifically for social studies teachers at all levels this resource helps facilitate the understanding and process of writing differentiated lessons to accommodate all readiness levels learning styles and interests

international business is undergoing continuous transformation as multinational firms and comparative management evolve in the changing global economy to succeed in this challenging environment firms need a well developed capability for sound strategic decisions this comprehensive work provides an applied and integrated strategic framework for developing capabilities that lead to global success it is designed to help readers achieve three essential objectives first it provides intellectual and practical guidelines for readers to execute goals and strategies that lead to meaningful and productive results the book is packed with frameworks cases anchoring exercises techniques and tools to help readers emerge with a completed business plan after the last chapter second it focuses on strategy and how firms build competitive presence and advantages in a global context a primary learning objective is to enable readers to understand and evaluate the major issues in strategy formulation and implementation in a global context third it provides an accessible framework that will help guide readers in making strategic decisions that are sound and effective it offers a unifying process that delineates the necessary steps in analyzing the readiness of a firm to do business abroad in addition to core issues each chapter presents frameworks analytical tools action oriented items and a real world case all designed to provide insights on the challenges imposed by globalization and technology on managers operating in a global context

one of the largest and most feared military forces in the world the red army was a key player in advancing the cause of soviet socialism rising out of revolutionary era citizen militias it aspired to the greatness needed to confront its cold war adversaries but was woefully unprepared to change with the times in this first comprehensive study of the soviet officer corps roger reese traces the history of the red army from civil war triumph through near decimation in world war ii and demoralizing quagmire in afghanistan to the close scrutiny it came under during gorbachev's reform era reese takes readers inside the red army to reconstruct the social and institutional dynamics that shaped its leadership and effectiveness over seventy three years he depicts the lives of these officers by revealing their class origins life experiences party loyalty and attitudes toward professionalism he tells how these men were shaped by russian culture and soviet politics and how the communist party dominated every aspect of their careers but never allowed them the autonomy they needed to cultivate a high level of military effectiveness despite its struggle to develop and maintain professionalism the officer corps was often hampered by factors inextricably intertwined with the soviet state marxist theory revolutionary ideology friction between party and non party members and the influence of the army's political administration organs reese shows that by rejecting the western bourgeois model of military professionalism the state greatly limited its officer corps ability to develop a more effective military while a sense of group identity emerged among officers after world war ii it quickly lost relevance in the face of postwar challenges especially the war in afghanistan which underscored fatal flaws in command leadership red commanders offers new insight into the workings of a military giant and also restores leon trotsky to his rightful place in soviet military history by featuring his ideas on building a new army from the ground up it is an important look behind the scenes at a military establishment that continues to face leadership challenges in russia today

steiner analyzes how and why brodie's understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets he shows the tremendous effect brodie's work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

this is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are denied access to policy agendas the book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities

this latest fifth assessment report of the intergovernmental panel on climate change ipcc will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy

this examination of the role of agriculture and food in the new international division of labor argues that the globalized economy creates new winners and losers

the former west german chancellor examines the political and economic problems that face the world today and argues that the us and europe must work more closely together to solve them

a documentary history that studies the series of laws passed by the us congress to establish the federal immigration and naturalization policies which have been put into effect since the founding of the nation legislation which has been designed increasingly to restrict and curtail immigration and which has been particularly harsh on asian immigrants since its inception complete chapters are devoted to each major piece of legislation from the reconstruction era to the immigration act of 1965 documents attached to the end of each essay treat particular topics related to it annotation copyright by book news inc portland or

a highly critical but nonpartisan assessment of the controversial former defense secretary as told by one of the leading experts on civil military relations focuses on rumsfeld s notoriously domineering leadership style flawed vision for transforming the military and failures in the iraq war

this book provides essential information and advice on how to facilitate the integration of climate change adaptation into development processes

in a scientifically exacting world scientists must assume responsibility for the consequences of science and technology the individual member of the educational and scientific estate may wish to avoid responsibility but he cannot justify it by the claim of higher commitment john kenneth galbraith the new industrial state scientists can no longer afford to be n dive about the political

effects of publicly stated scientific opinions if the effect of their scientific views is politically potent they have an obligation to declare their political or value assumptions and to try to be honest with themselves their colleagues and their audience about the degree to which these assumptions have affected their selection and interpretation of scientific evidence once scientific opinion enters into the public domain the possibility of political neutrality disappears but this does not mean that objectivity should be thrown to the winds harvey brooks 1973 harvard university imagine a huge ship let s call it titanic il crossing the north atlantic while the passengers enjoy the comfort for which they are paying so dearly the first mate at the helm believes he sees the dreaded form of an iceberg about three miles ahead through the thick fog he hurries to tell the captain about it as a veteran of countless uneventful voyages the captain is skeptical of the danger nevert ix the genesis strategy less he proceeds quickly to the helm but fails to see any obstacle ahead in the fog

a history of our time
