michel foucault has become famous for a series of books that have permanently altered our understanding of many institutions of western society he analyzed mental institutions in the remarkable madness and civilization hospitals in the birth of the clinic prisons in discipline and punish and schools and families in the history of sexuality but the general reader as well as the specialist is apt to miss the consistent purposes that lay behind these difficult individual studies thus losing sight of the broad social vision and political aims that unified them now in this superb set of essays and interviews foucault has provided a much needed guide to foucault these pieces ranging over the entire spectrum of his concerns enabled foucault in his most intimate and accessible voice to interpret the conclusions of his research in each area and to demonstrate the contribution of each to the magnificent and terrifying portrait of society that he was patiently compiling for as foucault shows what he was always describing was the nature of power in society not the conventional treatment of power that concentrates on powerful individuals and repressive institutions but the much more pervasive and insidious mechanisms by which power reaches into the very grain of individuals touches their bodies and inserts itself into their actions and attitudes their discourses learning processes and everyday lives foucault s investigations of prisons schools barracks hospitals factories cities lodgings families and other organized forms of social life are each a segment of one of the most astonishing intellectual enterprises of all time and as this book proves one which possesses profound implications for understanding the social control of our bodies and our minds

div a collection of ten essays paired with substantial prefaces this book chronicles and contextualizes roger cooter s contributions to the history of medicine through an analysis of his own work cooter critically examines the politics of conceptual and methodological shifts

in historiography in particular he examines the double bind of postmodernism and biological or neurological modeling that together threaten academic history to counteract this trend suggests cooter historians must begin actively locating themselves in the problems they consider the essays and commentaries constitute a kind of contour map of history s recent trends and trajectories its points of passage to the present and lead both to a critical account of the discipline s historiography and to an examination of the role of intellectual frameworks and epistemic virtues in the writing of history div

michel foucault s involvement with politics both as an individual and a writer has been much commented upon but until now has not been systematically reviewed this is the first major introductory study of michel foucault as a political thinker jonathon simons explores the importance of the political in all areas of foucault s work and life including important material only recently made available and the implications of various revelations about his private life simons relates foucault s work both to contemporary political thinkers such as michael walzer charles taylor and jurgen habermas and to those challenging conventional political categories especially people who write on feminist and gay theory such as judith butler students of foucault and of political and social theory as well as those working in lesbian and gay theory and feminist studies will find this book essential

foucault and social dialogue beyond fragmentation is a compelling yet extremely clear investigation of these options and offers a new way forward christopher falzon argues that the proper alternative to foundationalism is not fragmentation but dialogue and that such a dialogical picture can be found in the work of michel foucault such a reading of foucault allows us to see for the first time the ethical and political position implicit in foucault s work and how his work contributes to the larger debate concerning the death of man

in the past contingency and neo marxist theorists of culture reduced culture to an effect of something other than itself and as they made culture metaphorical they constituted its object of inquiry a somewhat impossible pretension this book extends the debate considerably it does so through considering the work of foucault in the context of the analysis of culture while foucault has had a considerable impact on organization studies up to the present no text has systematically addressed what happens to organization culture when it encounter a foucauldian gaze read this book and you will find out stewart clegg uts sydney

although foucault departs from marxism his own approach constitutes a form of consistent materialism which has theoretical implications for the analysis of social and educational discursive systems in seeking to demonstrate a correct reading of foucault linguistic readings of his work such as those of christopher norris 1993 which represent him as part of the linguistic turn in french philosophy where language or representation henceforth defines the limits of thought will be dispelled in the process of being corrected rather foucault will be represented as habermas 1987 has suggested not merely as a historicist but at the same time as a nominalist materialist and empiricist because the distinctiveness of foucault s approach can best be seen in contrast to other major philosophical systems and thinkers considerable attention is given to examining foucault s relationship to marxism as well as his relations to kant gramsci habermas and the greeks in relation to education

there is in foucault s approach a double emphasis which constitutes an ordering principle for this work on the one hand attention is directed to discursive practices which perform an educative role in the constitution of subjects and of human forms of existence on the other hand forms of education are constituted and utilized for the purposes of collective ethical self creation a theme foucault emphasized in his later works the book assesses some of the more interesting recent utilizations of foucault in educational research

international relations ir traditionally theorises the social relationships between different peoples in so doing it ignores the ecological bases to life the ground upon which we walk the all encompassing bind of nature in the current climate of environmental degradation international relations as a theory must in turn be altered by broadening the term relations to include this ecological framework international relations can be approached from a changed perspective in this book susan board uses a foucauldian model of power to expand the boundaries of international relations she argues that relations can include other people or animals and are not exclusively between states such a perspective acts to denaturalise the marginalization of women animals and indigenous peoples and hence expand the constrained discipline of ir by rethinking international relations to put ecological foundations first we are pushed to think and act with consideration of the long term sustainability of the global environment an ecological focus reminds us of our interdependence with our environment and all our neighbours the book raises conceptual and methodological issues that go directly to the heart of current critical engagements within the discipline of ir as such it will be of great interest to students and researchers in ir environmental politics and political theory

in the fifth volume in the studies in american sociology series stanford m lyman offers commentaries on and critiques of postmodernism poststructuralism and deconstruction posing questions concerning theoretical and epistemological problems arising from what appears to be a nouvelle vague postmodernism poststructuralism and deconstructionism are

interrelated aspects of the newest theoretical development in sociology and the social sciences this new wave of thought challenges virtually all paradigms currently in use in this his fifth volume in the studies in american sociology series stanford m lyman offers commentaries on and critiques of this new perspective posing questions concerning theoretical and epistemological problems arising from what appears to be a nouvelle vague among the basic themes and issues explored are the allegation that modernity has defaulted on the promise of the enlightenment the question of whether the rational basis for knowledge and action is still valid the controversy over the place of metanarratives and macrosociological outlooks and newer concerns over race gender sexual preferences the self and the other professor lyman provides empirically based and historically specific analyses of the relation of the race question to the problem of otherness and to the legal construction of racial identity in american court proceedings focusing on the issues of citizenship affecting european middle eastern and asian immigrants african americans and the special cases of the chinese and native americans he relates major public problems to the modern as well as the postmodern perspectives on justice the debate over assimilation and multiculturalism the dynamics of gender specific emotions as expressed in six decades of hollywood films and the postmodern approach to deviance are each examined he also offers proposals for a social science attuned to but critical of postmodernism and poststructuralism such a sociology might offer a perspective that treats the drama of social relations in the routine as well as the remarkable aspects of everyday life professor lyman provides not only a new understanding of postmodernism but also a program of how to proceed with respect to its challenges

discusses a selection of gothic romances dramas and chapbooks written and published in britain between walpole s 1764 the castle of otranto and maturin s melmoth the wanderer of 1820 this work employs theories from foucault s the order of things and history of sexuality as a primary and typical conceptual framework
