this collection of chapters offers readers diverse perspectives on english language teaching along with various closely related theoretical constructs and pedagogical tools such as motivation learner autonomy and technology amalgamating these constructs provides a much needed theoretical grounding by using empirical studies the chapters vary in their focus and reflect on classroom practices and yield findings pertaining to a wide range of topics as such it will be of interest to a wide range of english language teaching professionals from university instructors to schoolteachers this edited volume broadens the conceptual boundaries of language learning theories offers insights and directions into the future of hybrid teaching and learning and adds a new line of enquiry emanating from empirical findings this book will also be useful in professional development seminars and workshops that support multilingual learners teacher trainers and trainer teachers

comprehension of texts and understanding of questions is a cornerstone of successful human communication whilst reading comprehension has been thoroughly investigated in the last decade there is surprisingly little research on children s comprehension of picture stories particularly for bilinguals this can be partially explained by the lack of cross culturally robust cross linguistic instruments targeting early narration this book presents an inference based model of narrative comprehension and a tool that grew out of a large scale european project on multilingualism covering a range of language settings the book uses the multilingual assessment instrument for narratives to answer the question which narrative comprehension skills bilingual children can be expected to master at a certain age and explores how such comprehension is affected or not affected by linguistic and extra linguistic factors linking theory to method the book will appeal to researchers in linguistics and psychology and graduate students interested in narrative multilingualism and language acquisition

dynamic variation in second language acquisition makes a cutting edge contribution to knowledge about how second language learners develop their second language drawing comprehensively on processability theory s theoretical understanding that individual variation dynamically interacts with ordered stages of language acquisition the book provides an informative critical analysis of historical and contemporary debates about the role of variation in linguistic variation particularly second language variation richly illustrated with a forensic year long study of how eight adolescent learners of english

vary in their acquisition of syntax and morphology this monograph shows that learners vary in their timing of development between two distinct learner types along a continuum and without skipping stages the book uncovers how learner variation is dynamic and quite although not entirely systematic and how this variation contributes to change in the second language it will be essential reading for researchers students and practitioners

this new title applies inspiring ideas and teaching approaches to the different subject areas taught in primary schools using a practical subject based approach it promotes creativity innovativeness and enthusiasm as integral to effective teaching and enhanced standards each chapter introduces a subject its key issues vital knowledge and pedagogical implications in addition case studies action points key quotes and thought provoking suggestions for practice encourage readers to engage with the text offering refreshing innovative perspectives in an accessible format this book will help trainees and teachers to develop skills boost their confidence and crucially increase their own and their pupils enjoyment

this is an open access book the covid 19 pandemic in the last two years has influenced how educational system works online learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread despite the drawbacks of the online learning teachers and students were accustomed with the distant learning through web meetings learning management systems lms and other online learning platforms in that time topics under digital learning and education 5 0 were the main stakes in academic disseminations this year some institutions start to conduct their teaching and learning process classically as before the pandemic others are still continuing online and not few are in hybrid this leaves a question what learning reform should be made in post pandemic era this conference invites researchers experts teachers and students to discuss the coping solutions of the question it is important for them to contribute to the understanding of re imaging online education for better futures innovative learning design new skills for living and working in new times global challenge of education learning and teaching with blended learning flipped learning integrating life skills for students in the curriculum developing educators for the future distance learning humanities learning in the digital era assessment and measurement in education challenges and transformations in education technology in teaching and learning new learning and teaching models not limited to these scholars may add another interesting topic related to learning reform in post pandemic era to present
