understanding planets their effects each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood all planets in solar system are revolving around sun in a predefined pattern that s how we know when to wake up and when to go to bed planets however govern a lot more than just occurrence of day and night or eclipses and tides planets have a direct impact on us despite being several light years away while the position of planets does not dictate our everyday actions it does have a profound and close influence on our life and destiny understanding planets their effects much like nobody forces moon to orbit earth humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally the movement of planets affects our actions as a result much like our actions affect the environment human body is in fact made of elements present in the universe the structure of our brain is very much similar to the structure of universe everything that happens to the universe happens to us our own magnetic field aligns with the earth s magnetic field each object in the universe be it humans earth planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better each planet emanates certain energy while moving through the zodiac circle some planets move faster like sun moon mercury mars and venus these are called inner planets and they affect us in a more personal and rapid manner influencing our daily life impulses and mood the outer planets move slowly in the sky some even take as much as 2 5 years to change a sign these include jupiter saturn rahu and ketu and these planets have a more profound and long lasting impact on us unlike say moon astrological significance of planets

every planet rules a zodiac sign except rahu and ketu which are in fact not actual planets but two reference points in the sky rahu and ketu are the points where the paths of the sun and moon intersect with each other rahu is the north lunar node the head of the dragon as per mythology and ketu is the south lunar node the qualities of the zodiac signs somewhat align with the characteristics of the planets for instance impulsive and active aries is ruled by fiery mars dreamy pisces is ruled by spiritual jupiter emotional cancer is ruled by motherly moon while confident leo is ruled by masculine sun

in the most basic terms planetary conjunction occurs when two or more planets occupy the same house but what happens when planets are conjunct in a house they define your life in a nutshell a conjunction can be benefic or malefic depending upon several factors such as the nature of the planets involved their relationship with each other and the house sign they are placed in the strength of the planet is also taken into account like whether the planet is combust retrograde or direct there can be as many as 5 or 6 planets in the same house but such is a rare occurrence these are in fact the most difficult horoscopes to interpret care must be taken in determining how the planets affect each other there could be a yoga or a planetary combination forming due to the conjunction but if a malefic planet is operational in the same house the yoga may not fructify for the native on the other hand when multiple weak or malefic planets get together in a house presence of a benefic could balance the situation nevertheless its power would be low due to malefic influence so the horoscope can only be considered average conjunction of multiple planets in one house indicates the focus area of your life the house where most of the planets are placed nevertheless there could be some misbalance in the personality of the native due to the strong pull of a single house the lord of house where conjunction of planets takes place is also under the spotlight if it is positioned well it casts a benefic influence upon the native it tends to make other planets strong too however if it is weakly posited or under malefic influence it may only deem negative results and may worsen the situation

in vedic astrology harmonious and inharmonious aspects among the planets depend upon their natural significations and their basic characters planets of contrary characteristics usually display inharmony when in aspect however the lordships of planets have a great say in moulding the planets considerably when in aspect this change in nature and characteristics is particularly noticeable during their dasas and bhuktis thus we see that in vedic astrology the results of aspects of planets depend upon their natural characteristics and lordships in western astrology it is the angle between the planets that decides harmonious or inharmonious aspects the planets at 90 or 120 apart are supposed to be in harmony or create a harmonious aspect tend to enhance each other's good significations modify and retard the bad significations if the angle is 90 or 180 or placed in 6th 8th to each other then they are said to be in inharmonious aspects they tend to irritate and block each other's significations they give bad results for the houses they are posited in and for the houses ruled by them we propose to discuss here the harmonious and inharmonious aspects between the sets of two planets in a general sense these aspects are pliable for various horoscopes according to lordships and natural characteristics of planets involved and other aspects to these planets

a horoscope is it always to be feared or does it have the power to give also mars is the fourth planet from the sun it is called mangal in hindi kujja in sanskrit west has named it after the roman god of war mars is also referred to as the red planet because of its reddish appearance as seen from earth similarly all the planets are divided into 4 elements of nature fire earth air and water mars is supposed to be a fiery planet as the story goes in the vedic system mars is the commander in chief of the celestial army it is therefore quite natural to associate mars with action raw energy after all it is fiery hot red and fast compared to jupiter and saturn it is a much faster planet orbiting the sun

sign for a month and it changes sign every month you would remember that lord sun is the representative of punctuality and discipline so there are no breaks to the rule lord moon is in similar vein he changes sign every 2 5 days passing through the zodiac in 28 days roughly a month on the other hand lords rahu and ketu spend 18 months in a zodiac sign retrograde planets now that we have eliminated 4 planets this leaves us with 5 planets which can be retrograde in a horoscope lords jupiter mars mercury saturn and venus retrogradation are abnormalities and some astrologers link these to past life debts the abnormality can give you pain and benefits both depending on placement in your chart to learn more read this book

jupiter is the guardian of the thinking person the ruler of higher intellect the embodiment of lady luck and signifies spiritual wisdom jupiter represents your ideology in life and in spiritual terms it rules over faith religion philosophy and the search for the ultimate truth of life jupiter governs your intrinsic curiosity to find the answers and explore the world in the process thus foreign travel comes under the domain of this planet jupiter in vedic astrology is considered to be the most benevolent of all planets thus naturally associated with luck fortune and wealth its benefic presence can turn rags to riches while saturn is the teacher jupiter is more of a classmate that helps to grow and sees how you flourish and tread on the right path it is a judge who assures that you do not forget your values in the process while this benefic planet bestows us with wisdom and wealth at its worst it can surrender to lethargy sloth and indulgence
