bad blood explores representations of race in early modern english and spanish literature especially drama it addresses two different forms of racial ideology one concerned with racialized religious difference that is the notion of having jewish or muslim blood and one concerned with blackness and whiteness shakespeare s othello tells us that he was sold to slavery in his youth a phrase that evokes the atlantic triangle trade for readers today for many years however scholars have asserted that racialized slavery was not yet widely understood in early modern england and that the kind of enslavement that othello describes is related to christian muslim conflict in the mediterranean rather than the rise of the racialized enslavement of afro diasporic subjects bad blood offers a new account of early modern race by tracing the development of european racial vocabularies from spain to england dispelling assumptions stemming from spain s historical exclusion of jews and muslims that premodern racial ideology focused on religious difference and purity of blood more than color emily weissbourd argues that the context of the atlantic slave trade is indispensable to understanding race in early modern spanish and english literature alike through readings of plays by shakespeare lope de vega and their contemporaries as well as spanish picaresque fiction and its english translations weissbourd reveals how ideologies of racialized slavery as well as religious difference come to england via spain and how both notions of race operate in conjunction to shore up fantasies of blackness whiteness and pure blood the enslavement of black africans weissbourd shows is inextricable from the staging of race in early modern literature

for millennia friendships have framed the most intimate and public contours of our everyday lives in this book ignacio martínez tells the multilayered story of how the ideals logic rhetoric and emotions of friendship helped structure an early yet remarkably nuanced fragile and sporadic form of civil society *societas civilis* at the furthest edges of the spanish empire spaniards living in the isolated borderlands region of colonial sonora were keen to develop an ideologically

relevant and socially acceptable form of friendship with indigenous people that could act as a functional substitute for civil law and governance thereby regulating native behavior but as frontier society grew in complexity and sophistication indigenous and mixed raced people also used the language of friendship and the performance of emotion for their respective purposes in the process becoming skilled negotiators to meet their own best interests in northern new spain friendships were sincere and authentic when they had to be and cunningly malleable when the circumstances demanded it the tenuous origins of civil society thus developed within this highly contentious social laboratory in which friendships authentic and feigned set the social and ideological parameters for conflict and cooperation far from the coffee houses of restoration london or the lecture halls of the republic of letters the civil society illuminated by martínez stumbled forward amid the ambiguities and contradictions of colonialism and the obstacles posed by the isolation and violence of the sonoran desert
