i found myself praying from christian foundations in new ways of course like most academics i had heard it all before but i haven t not this way at least it was truly an experience of talking to god while thinking about god not a bad way to do theology needless to say i will use it with my undergraduates dr thomas groome boston college

i am part of a vast ocean of christians that view the word of god through a different set of eyes than those of many pastors professors and church staff members i have interest in the deep theology of scripture and recognize my need to be exposed to and covered by the word of god similar to that of my called brothers in christ yet i want it delivered to me in a simple worker s language recent translations have strived toward this end and have made headway yet the finished product is still from scholars that often describe the original transcripts from a theological standpoint rather than a worker s standpoint the eastern standard version esv published in 2001 was written to carefully weigh accuracy against the original hebrew aramaic and greek scrolls it stands as one of the better accepted of sound english bible translations because of its wide acceptance i have used this translation for my resource i have certainly considered a host of opinions and writings of a host of scholars but my source of authenticity has always been god s word in writing this book i strongly encourage our religious leaders to go back to the reading writing and arithmetic basics of god s word just as i believe we need to get back to the basics in educating our children in school in reading writing and arithmetic we also need to get back to the reading writing and arithmetic basics in educating god s people in church perhaps such consideration is out of touch with the advanced theology of today as a layman not an ordained or seminary graduate i might be considered a doctrine dummy this book entitled foundations of our faith is written for this vast ocean of people we are not dummy people but we are somewhat hindered in our study by deep theological doctrine this book tries to take us back to reading writing and arithmetic doctrine

contains the 4th session of the 28th parliament through the session of the parliament

dr stringer s book is about world history from a biblical point of view this book is not infected with a secular world view but rather is written from the perspective of a student of god s words who sees god s plan revealed through the study of history it is a book that has long been needed for the

pastor missionary evangelist and layman
