the issue of democracy and social transformation to capture the social and political dynamics the selection of this topic is based on the idea that technological development is becoming a crucial issue within modern society in which people tend to experience alienation within the rapid social and political transformation democracy as a political system that ensures transparency citizen participation and human rights protection is now under threat having the fact that there is a growing tendency of using transactional politics to win political interests such as the use of money and identity in political processes therefore political analysts consider this situation as the regression of democracy rapid social and cultural transformation as a consequence of advanced technology creates problems in modern society on one hand technology has made the life of people easier however on the other hand the sense of humanity's values and principles is declining this situation can be observed in the decrease in social solidarity and the rise of individualism modernity that values productivity and economic growth has brought a negative impact on the life of human being and nature the exploitative character of industrialization has created an ecological crisis advanced information technology has loosened social cohesivity and the rise of instrumental rationality has removed local genius or local wisdom from the life of society since the ultimate goal of humanity is respecting the dignity of human beings hence bringing back humanity to the center of the development program is crucial especially in the current social and political dynamics in the political context humanity means respecting the basic rights of the citizen and putting them as a subject of political development and not perceiving citizens as only an instrument to win political power based on the above background this conference is organized the overall goal of the conference is to mainstream humanity in the current social and political change the conference is also expected to be an arena for scholars and experts in social and political science as well as practitioners and policymakers to meet and exchange ideas and perspectives for a better future of our society

the fourth industrial revolution has the potential to raise global income levels and improve the quality of life for populations around the world technology development of ai self driving big data the internet of things and many digital revolutions have changed how people interact with each other therefore developing a comprehensive and globally shared view of how technology is affecting our lives and reshaping our social cultural and human environments is essential there has never been a time of more significant promise or one of greater potential peril today's decision makers however are too often trapped in traditional linear thinking or too absorbed by the multiple crises demanding their attention to think strategically about the forces of disruption and innovation shaping our future the main goal of the conference was to provide an outlet for

papers discussing the importance and impact of industrial revolution 4.0 to influence social aspect in human life the proceedings consist of papers covering issues on psychology law communication studies culture religion and literature the proceedings will provide the latest research and constitute a concise but timely medium for the dissemination the proceedings of the 1st international conference on social sciences series soscis 2019 will be invaluable to professionals and academics in psychology law communication studies culture religion and literature

this is an open access book in this industrial era 4.0 society encounters significant environmental economic and social challenges thus educational institutions need to ensure that all students are well prepared for the future and that they can act as agents of change as a result educational institution must expand their educational system extensively to address these challenges including reshaping teaching and learning notions and platforms that immensely focus on not only developing a broad set of academic staff and student's knowledge skills attitudes and values but also upholding the fast growing technology building strong learning connections should be perceived as the highest priority in educational institutions the connection paves the way for critical thinking and it is a fundamental concept that connects both context and relevance in this digital information age technology has enormous potential to assist this whole process of connection the 5th international conference of current issues in education iccie 2023 provides platforms for researchers and practitioners to share their ideas and experiences concerning these issues the conference also brings an excellent opportunity to connect with global participants and enhance further collaborations
