from the time of its discovery the new world was regarded by american settlers as a new eden and a new jerusalem although individual pioneers visions of paradise were inevitably corrupted by reality some determined ideatists carved out enclaves in order to develop collective models of what they believed to be more perfect societies all such communitarian groups consciously attempted to express their social ideals in their buildings and landscapes invariably ideological predispositions can be inferred from a close study of the environments they created the interplay between ideology and architecture the social design and the physical design of american utopian communities is the basis of this remarkable book by dolores hayden at the heart of the book are studies of seven communitarian groups collectively stretching over nearly two centuries and the full breadth

of the american continent the shakers of hancock massachusetts the mormons of nauvoo illinois the fourierists of phalanx new jersey the perfectionists of oneida new york the inspirationists of amana iowa the union colonists of greeley colorado and the cooperative colonists of llano del rio california hayden examines each of these groups to see how they coped with three dilemmas that all socialist societies face conflicts between authoritarian and participatory processes between communal and private territory and between unique and replicable community plans the book contains over 260 historic and contemporary photographs and drawings which illustrate the communitarian processes of design and building the drawings range in scale from regional plans showing land ownership access to transportation and availability of natural resources through site plans of communal domains and building plans of dwellings and assembly halls down to detailed diagrams of furniture configurations to aid readers in making comparisons a series of site and building plans drawn at constant scales has been provided for all seven case studies

the utopian socialism of charles fourier spread throughout europe in the mid nineteenth century but it was in the united states that it generated the most intense excitement in this rich and engaging narrative carl j guarneri traces the american fourierist movement from its roots in the religious social and economic upheavals of the 1830s through its bold communal experiments of the 1840s to its lingering twilight after the civil war

first published in 1998 routledge is an imprint of taylor francis an informa company

this is the first book to take issue with the long standing assumptions about alternative media and democratic communications and place them in a detailed cultural and historical context ranging from prophecy in sixteenth century england to the self managed projects of critical literacy and social change of today it assesses the historical heritage present conditions and future possibilities of today s remade media landscape for democratic communications

the american people sees itself advance across the wilderness draining swamps straightening rivers peopling the solitude and subduing nature wrote alexis de toqueville in 1835 that s largely how we still think of nineteenth century america today a country expanding unstoppably bending the continent s natural bounty to the national will heedless of consequence a country of slavery and of indian wars there s much truth in that vision but if you know where to look you can uncover a different history one of vibrant resistance one that s been mostly forgotten this radical land recovers that story daegan miller is our guide on a beautifully written revelatory trip across the continent during which we encounter radical thinkers settlers and artists who grounded their ideas of freedom justice and progress in the very landscapes around them even as the runaway engine of capitalism sought to steamroll everything in its path here we meet thoreau the expert surveyor drawing anticapitalist property maps we visit a black antislavery community in the adirondack wilderness of upstate new york we discover how seemingly commercial

photographs of the transcontinental railroad secretly sent subversive messages and how a band of utopian anarchists among california s sequoias imagined a greener freer future at every turn everyday radicals looked to landscape for the language of their dissent drawing crucial early links between the environment and social justice links we re still struggling to strengthen today working in a tradition that stretches from thoreau to rebecca solnit miller offers nothing less than a new way of seeing the american past and of understanding what it can offer us for the present and the future

a close examination of an iconic small town that gives boundless insights into architecture landscape preservation and philanthropy avant garde in the cornfields is an in depth study of new harmony indiana a unique town in the american midwest renowned as the site of two successive utopian settlements during the nineteenth century the harmonists and the owenites during the cold war years of the twentieth century new harmony became a spiritual living community and attracted a wide variety of creative artists and architects who left behind landmarks that are now world famous this engrossing and well documented book explores the architecture topography and preservation of new harmony during both periods and addresses troubling questions about the origin production and meaning of the town s modern structures landscapes and gardens it analyzes how these were preserved recognizing the funding that has made new harmony so vital and details the elaborate ways in which the town remains an ongoing experiment in defining the role of patronage in historic preservation an important reappraisal of postwar american architecture from a rural perspective avant garde in the cornfields presents provocative ideas about how history is interpreted through design and historic preservation and about how the extraordinary past and present of new harmony continue to thrive today contributors william r crout harvard u stephen fox rice u christine gorby pennsylvania state u cammie mcatee harvard u nancy mangum mccaslin kenneth a schuette jr purdue u ralph schwarz paul tillich
