this monograph presents a new history of early american literature that traces the diverse forms of fiction circulating in the early united states 1789 1861 and how they shaped the way americans thought and argued about political and cultural issues of their age

in this trenchant and lively study brian mchale undertakes to construct a version of postmodernist fiction which encompasses forms as wide ranging as north american metafiction latin american magic realism the french new new novel concrete prose and science fiction considering a variety of theoretical approaches including those of ingarden eco dolezel pavel and hrushovski mchale shows that the common denominator is postmodernist fiction s ability to thrust its own ontological status into the foreground and to raise questions about the world or worlds in which we live exploiting various theoretical approaches to literary ontology those of ingarden eco dolezel pavel hrushovski and others and ranging widely over contemporary world literature mchale assembles a comprehensive repertoire of postmodernist fiction s strategies of world making and unmaking

the profound political and social changes germany has undergone since 1989 have been reflected in an extraordinarily rich range of contemporary writing contemporary german fiction focuses on the debates that have shaped the politics and culture of the new germany that has emerged from the second half of the 1990s onwards and offers the

first comprehensive account of key developments in german literary fiction within their social and historical context each chapter begins with an overview of a central theme such as east german writing west german writing writing on the nazi past writing by women and writing by ethnic minorities the authors discussed include günter grass ingo schulze judith hermann christa wolf christian kracht and zafer senocak these informative and accessible readings build up a clear picture of the central themes and stylistic concerns of the best writers working in germany today

in this expansive history of south carolina s commemoration of the civil war era thomas j brown uses the lens of place to examine the ways that landmarks of confederate memory have helped white southerners negotiate their shifting political social and economic positions by looking at prominent sites such as fort sumter charleston s magnolia cemetery and the south carolina statehouse brown reveals a dynamic pattern of contestation and change he highlights transformations of gender norms and establishes a fresh perspective on race in civil war remembrance by emphasizing the fluidity of racial identity within the politics of white supremacy despite the conservative ideology that connects these sites brown argues that the confederate canon of memory has adapted to address varied challenges of modernity from the war s end to the present when enthusiasts turn to fantasy to renew a faded myth while children of the civil rights era look for a usable confederate past in surveying a rich controversial and sometimes even comical cultural landscape brown illuminates the workings of collective memory sustained by engagement with the particularity of place
