traditional education revolves around the teaching of technical skills especially within stem fields however soft skills broadly communication and intrapersonal skills are essential within all fields especially those frequently involving research and collaboration however the focus on teaching students to be adept communicators and team members remains woefully underdeveloped innovations and technologies for soft skill development and learning is a pivotal reference source that explores the mental and psychological growth of individual learners at different stages of education concerning soft skills and the need for innovation and creativity to lead a successful career highlighting topics including higher education emotional intelligence and student behavior this book is ideally designed for educators curriculum developers instructional designers administrators policymakers academicians researchers and students

in this research topic we plan to assess the interface of conservation and science looking at the various aspects of tiger conservation by assessing what advances have been made in each relevant field where are the limitations and what does the data show us about successes and failures in conserving tigers their prey and their habitat through a series of multiple authored papers we plan to explore the realms of tiger and prey monitoring law enforcement habitat restoration efforts human tiger conflicts landscape connectivity and

ultimately how tiger conservation strategies have evolved and emerged leading up to the present coming at this critical time with 2022 being the year of the tiger and the end of a 12 year pledge by tiger range countries to double tiger numbers this research topic will provide a landmark publication reflecting back on the past 12 and more years of tiger conservation and research and laying the foundation for the coming twelve years while the focus is on tigers the studies will have wide application to efforts to conserve other large bodied carnivores in 2010 the lunar year of the tiger a tiger summit was held in the russian city of st petersburg where 13 tiger range countries pledged to double tiger numbers by the next lunar year of the tiger in 2022 the science of tiger conservation has developed in multiple ways over the past twelve years as we approach this benchmark when tiger range countries will be reporting on their past efforts and planning for the next twelve years it is important to assess what has been accomplished and what yet needs to be done where there have been successes and what has not worked this is why it is particularly important to employ a science based approach to conservation something that is not universally adopted by tiger conservation advocates but which we as editors of this collection consider central to successful tiger conservation this research topic will lay the foundation for effective science based conservation of tigers for the next twelve years in 2021 a collection of representatives from the international tiger conservation community developed a joint ngo vision of priorities in tiger conservation for the coming twelve years in this research topic we plan to focus on the critical issues for global tiger conservation as identified by this international group this topic will discuss these issues and highlight how they have been addressed in diverse tiger landscapes including both successes and failures our goal is to provide a foundation and structure for site based tiger conservation actions within and beyond the next 12 year lunar cycle this research topic was conceptualized and launched by dale miquelle thomas gray luke hunter abishek harihar john goodrich and matthew linkie in collaboration with frontiers to focus on the convergence of site based tiger conservation strategies opportunities for restoration of tigers across their historical range recovery of tigers in thailand s tiger conservation landscapes what works an integrated law enforcement approach for protecting tigers and their prey in sumatra cost of ranger protection for tiger protected area evaluating a site based enforcement strategy malaysia beyond density better indicators for tiger monitoring prey recovery is the foundation of tiger restoration resolving human tiger conflicts community based tiger conservation can it work ensuring connectivity of tiger conservation landscapes emerging infectious disease threats tiger conservation and global regional initiatives

pratiyogita darpan monthly magazine is india s largest read general knowledge and current affairs magazine pratiyogita darpan english monthly magazine is known for quality content on general knowledge and current affairs topics ranging from national and international news issues personality development interviews of examination toppers articles write up on topics like career economy history public administration geography polity social environment scientific legal etc solved papers of various examinations essay and debate contest quiz and knowledge testing features are covered every month in this magazine

the stated reason for invading iraq was its alleged clandestine pursuit of weapons of mass destruction in defiance of un resolutions even though the allegation was proven false the international community remains preoccupied with the threat of the proliferation and use of such terrible weapons this has three interlinked components non proliferation arms control and disarmament some countries from within the shelter of the npt could either develop a full fledged weapons capability covertly and illegally or else acquire all the materials and expertise needed for a weapons programme and withdraw from the treaty when they are ready to proceed with weaponization there is good reason to fear the erosion and possible collapse of the whole npt regime over the longer term treaties already negotiated and signed could unravel through non ratification or breakouts the testing of nuclear weapons could be resumed and there is a lengthening list of proliferation sensitive countries of concern both the 2004 npt review conference and the un world summit in 2005 failed to address the urgent challenge of arms control the questions discussed in this book include doctrinal issues regarding the use of force in general the implications of a shift in the utility of nuclear weapons from deterrence to compellence and of a focus on non proliferation to the neglect of disarmament the place and role of the united nations in controlling the spread and use of wmd the regional dynamics of proliferation concerns in north east asia and the middle east the policy drivers of the npt and extra npt nuclear powers and the threats posed by the possible acquisition of nuclear weapons and missiles by non state actors

this book examines actors tools and issues associated with the changing nature of the environment in which the united nations operates the ways in which it has responded and might respond to technological and political problems and the questions and difficulties that arise for the world organization issues covered in the book include doctrinal questions on the use of force the regional dynamics of nuclear proliferation and the growing concern that nuclear order established by the npt may collapse or simply be overtaken by events publisher s description
