The volume is divided into six parts which reflect the field's structure and evolution: constructs and units of analysis, theoretical approaches, methodological approaches, pedagogical approaches, contexts, and individual considerations. L2 pragmatics in the global era. The handbook has a particular focus on covering not only traditional topics in the field such as constructs of pragmatic competence (e.g., speech acts, implicature, teaching and assessment, and pragmatics learning in a study abroad program) but also emerging areas of study including interactional pragmatics, intercultural pragmatics, usage-based approaches, corpus linguistics, and psycholinguistic experimentation. Each chapter introduces the topic and follows with a description of its theoretical underpinnings, an overview of existing literature, appraisal of current practice, concluding with a discussion of future directions for research and key readings.
