members of today's online educational settings are often isolated which can prohibit the sharing of ideas and best practices among individuals working and learning as a collective group promoting collaboration across various disciplines and departments fosters professional development activities as well as creates strong connections to the entire online community building online communities in higher education institutions creating collaborative experience cultivates knowledge on topics pertaining to the improvement of communication and collaboration in online learning communities advancing the current scope of research in this field this book is designed for use by faculty students researchers practitioners and college administrators interested in strengthening communication and collaboration in virtual settings

this book provides instructors with a holistic way of thinking about learners learning and online course design the distinctive strategies derived from an integrated framework for designing the online learning experience help create an experience that is more personalized engaging and meaningful for online learners the focus of this book is on the learners and the design of their online learning experiences the authors refer to learning design instead of instructional design which focuses on instruction and places the instructor at the center stage of the process therefore the focus is on approaching a learner's online course experience as a journey consisting of a combination of learning interactions with content instructor and other learners in most online courses instructors and learners are separated in time and space and depend on technology to facilitate interactions that often lack a strong personal dimension as online learning continues to proliferate and mature the emphasis on simply making content available to students online is no longer acceptable creating online courses now requires a new way of thinking that incorporates new design ideas and approaches from a variety of fields it also requires a new set of learning design skills for instructors and course designers organized into eight chapters this volume focuses on enhancing online learning experiences for each of the major aspects of an online course providing evidence based principles and strategies to promote learner engagement and deep learning the concluding chapter provides an example illustrating a real world application of the principles and strategies covered in the book using design thinking to create learning experiences this book provides strategies for approaching the learning experience from an integrative perspective for both experienced online instructors and those new to online course design these strategies are based on evidence based learning design principles and encourage the reader to adopt an empathic mindset focused on the experience of the learner

while online courses are said to be beneficial and many reputable brick and mortar higher

education institutions are now offering undergraduate and graduate programs online there is still ongoing debate on issues related to credibility and acceptability there is some reluctance to teach online and to admit and hire students who have enrolled in online programs given these concerns it is essential that educators in online communities continue to share the significant learning experiences and outcomes that occur in online classrooms and highlight pedagogical practices used by online instructors to make their courses and programs comparable to those offered face to face the handbook of research on creating meaningful experiences in online courses is a comprehensive research book that examines the quality of courses in higher education that are offered exclusively online and details strategies and practices used by online instructors to create meaningful teaching and learning experiences in online courses featuring a range of topics such as gamification professional development and learning outcomes this book is ideal for academicians researchers educators administrators instructional designers curriculum developers higher education faculty and students

the renowned and highly experienced editors of this book bring together the leading voices in contemporary english education under the banner of the international federation for the teaching of english ifte the collected chapters here represent the very best of international writing on the teaching of english in the past decade the key issues and debates surrounding english teaching across the globe are discussed and analysed accessibly and incorporate wide ranging topics including the impact of high stakes testing on teaching and learning addressing the needs of minority groups the digitization of literature and new conceptions of text rewriting the canon dealing with curriculum change best practices in the teaching of english the tension between literacy and english english and bilingual education the impact of digital technologies on teaching and learning conceptions of english as a subject secondary and tertiary bringing the critical into the english literacy classroom the future of subject english empowering voices on the margins pre service teacher education the social networking english classroom this text looks at the changing face of subject english from the differing perspectives of policy makers teacher educators teachers and their students it tackles some of the hard questions posed by technological advances in a global society challenges conventional approaches to teaching and points to the emerging possibilities for a traditional school subject such as english in the face of rapid change and increasing societal expectations despite all of the converging political and technological threats the authors of this engaging and insightful text portray an immense confidence in the ultimate worth of teaching and learning subject english
