these essays examine robinson s use of alternate history and politics both in his many novels and in his short stories this collection drawn from writers on four continents includes five new essays and broadens the interpretive debate surrounding robinson s science fiction and argues for consideration of the author as an intellectual figure of the first rank provided by publisher

set in our nation's capital here is a chillingly realistic tale of people caught in the collision of science technology and the consequences of global warming when the storm got bad Frank Vanderwal was in his office at the National Science Foundation when it was over large chunks of San Diego had eroded into the sea and D.C. was underwater everything Frank and his colleagues feared had culminated in this disaster and now the world was looking to them to fix it but even as D.C. bails itself out a more extreme climate change looms the melting polar ice caps are shutting down the warm Gulf Stream waters meaning ice age conditions could return and the last time that happened eleven thousand years ago it took just three years to start

by the time Phil Chase is elected president the world's climate is far on its way to irreversible change food scarcity housing shortages diminishing medical care and vanishing species are just some of the consequences the erratic winter the Washington D.C. area is experiencing is another grim reminder of a global weather pattern gone haywire bone chilling cold one day balmy weather the next but the president elect remains optimistic and doesn't intend to give up without a fight a maverick in every sense of the word Chase starts organizing the most ambitious plan to save the world from disaster since FDR and assembling a team of top scientists and advisers to implement it for Charlie Quibler this means reentering the political fray full time and giving up full time care of his young son Joe for Frank Vanderwal hampered by a brain injury it means trying to protect the woman he loves from a vengeful ex and a rogue black ops agency not even the president can control a task for which neither Frank's work at the National Science Foundation nor his study of Tibetan Buddhism can prepare him in a world where time is running out as quickly as its natural resources where surveillance is almost total and freedom nearly nonexistent the forecast for the Chase administration looks darker each passing day for as the last and most terrible of natural disasters looms on the horizon it will take a miracle to stop the clock the kind of miracle that only dedicated men and women can bring about

Kim Stanley Robinson's Mars trilogy is one of science fiction's most honored stories with Red Mars winning the distinguished Nebula Award and both Green Mars and Blue Mars honored with the Hugo now Robinson returns to the realm he has made his own the planet Mars in a brilliantly imagined drama with a searing poetic vision from a training mission in Antarctica to blistering sandstorms sweeping through labyrinths of barren canyons the interwoven stories of the Martians set in motion a sprawling cast of characters upon the surface of Mars as the planet is transformed from an unexplored and forbidding terrain to a troubled image of a re-created Earth we meet the first hundred explorers men and women who are bound together by Earth's tenuous toehold on Mars presenting unforgettable stories of hope and disappointment of fierce physical and psychological struggles the Martians is an epic chronicle of a planet that represents one of humanity's most glorious possibilities praise for the Martians a uniquely rewarding experience of state of the art science fiction the New York Times book review no one familiar with Robinson's trilogy can read through these final valedictory stories without feeling moved the Washington Post the stories are beautifully written the characters are well developed and the author's passion for ecology manifests itself on every page Publishers Weekly starred review

red moon is a magnificent novel of space exploration and political revolution from new york times bestselling author kim stanley robinson it is thirty years from now and we have colonized the moon american fred fredericks is making his first trip his purpose to install a communications system for china s lunar science foundation but hours after his arrival he witnesses a murder and is forced into hiding it is also the first visit for celebrity travel reporter ta shu he has contacts and influence but he too will find that the moon can be a perilous place for any traveler finally there is chan qi she is the daughter of the minister of finance and without doubt a person of interest to those in power she is on the moon for reasons of her own but when she attempts to return to china in secret the events that unfold will change everything on the moon and on earth

winner of the nebula award for best novel discover the novel that launched one of science fiction s most beloved acclaimed and awarded trilogies kim stanley robinson s masterly near future chronicle of interplanetary colonization a staggering book the best novel on the colonization of mars that has ever been written arthur c clarke for centuries the barren desolate landscape of the red planet has beckoned to humankind now a group of one hundred colonists begins a mission whose ultimate goal is to transform mars into a more earthlike planet they will place giant satellite mirrors in martian orbit to reflect light onto its surface black dust sprinkled on the polar caps will capture warmth and melt the ice and massive tunnels drilled into the mantle will create stupendous vents of hot gases but despite these ambitious goals there are some who would fight to the death to prevent mars from ever being changed

winner of the locus award the bestselling author of the mars trilogy boldly reimagines the past seven hundred years in this exceptional and engrossing new york post saga constructing a world vastly different from the one we know a thoughtful magisterial alternate history from one of science fiction s most important writers the new york times book review it is the fourteenth century and one of the most apocalyptic events in human history is set to occur the coming of the black death history teaches us that a third of europe s population was destroyed but what if the plague had killed 99 percent of the population instead how would the world have changed the years of rice and salt is a look at the history that could have been one that stretches across centuries sees dynasties and nations rise and crumble and spans horrible famine and magnificent innovation through the eyes of soldiers and kings explorers and philosophers inventors and exiles renowned storyteller kim stanley robinson navigates a world where buddhism and islam are the most influential and practiced religions while christianity is a mere historical footnote probing the most profound questions as only he can robinson shines his extraordinary light on the place of religion culture power and even love in this bold new world

from the acclaimed author of new york 2140 and red mars this nyt bestselling novel tells the story of a future where humanity has populated miraculous new habitats engineered across the solar system and the one death that triggers a precarious chain of events that could destroy it all the year is 2312 scientific and technological advances have opened gateways to an extraordinary future earth is no

longer humanity's only home new habitats have been created throughout the solar system on moons planets and in between but in this year 2312 a sequence of events will force humanity to confront its past its present and its future the first event takes place on mercury on the city of terminator itself a miracle of engineering on an unprecedented scale it is an unexpected death but one that might have been foreseen for swan er hong it is an event that will change her life swan was once a woman who designed worlds now she will be led into a plot to destroy them

established in 2025 the purpose of the new organisation was simple to advocate for the world's future generations and to protect all living creatures present and future it soon became known as the ministry for the future and this is its story from legendary science fiction author kim stanley robinson comes a vision of climate change unlike any ever imagined told entirely through fictional eye witness accounts the ministry for the future is a masterpiece of the imagination the story of how climate change will affect us all over the decades to come its setting is not a desolate post apocalyptic world but a future that is almost upon us and in which we might just overcome the extraordinary challenges we face it is a novel both immediate and impactful desperate and hopeful in equal measure and it is one of the most powerful and original books on climate change ever written also by kim stanley robinson red moon new york 21402312 aurora shaman
