this book brings a radically new voice to the debate in the field of chinese politics and labor movement using a psychological and cognitive approach the author examines workers and activists everyday interpretation of the source of their problems their prospect of labor movements and their sense of solidarity the project shows how workers themselves have become a part of the apparatus of state repression and argues that chinese workers have not acquired sufficient cognitive strength to become the much hoped for agent for political

change which hinders labor activism from developing into a sustainable social movement multidisciplinary in its approach the monograph provides analysis of chinese politics labor studies international political economy social movements and contentious politics

as the world s factory china exerts an enormous pressure on workers around the world many nations have had to adjust to a new global political and economic reality and so has china its workers and its official trade union federation have had to contend with rapid changes in industrial relations anita chan argues that chinese labor is too often viewed from a prism of exceptionalism and too rarely examined comparatively even though valuable insights can be derived by analyzing china s workforce and labor relations side by side with the systems of other nations the contributors to chinese workers in comparative perspective compare labor issues in china with those in the united states australia japan india pakistan germany russia vietnam and taiwan they also draw contrasts among different types of workplaces within china the chapters address labor regimes and standards describe efforts to reshape industrial relations to improve the circumstances of workers and compare historical and structural developments in china and other industrial relations systems

the purpose of this study is to examine the chinese confrontation on the pacific coast as it was experienced and rationalized by the white majority for reasons which will be evident in what follows the main body of the work chapters 3 through 11 will focus on the democratic

party and the labor movement of california through the forty year period after the civil war the two opening chapters turn back to explore aspects of the jacksonian background which appear crucial to an understanding of what occurred in california the final chapter looks beyond the turn of the century to trace certain results of the sequence of events in the west for the labor movement as a whole and to suggest the influence of those events upon the crystallization of an american concept of national identity

this project provides an in depth study of the role of worker activist leaders in industrial strikes in china a country where labor rights face significant challenges from state and industry suppression and by current lack of formal organization
