the philosophy of symbolic forms is one of the landmarks of twentieth century philosophy drawing from the influential work of wilhelm dilthey it transformed neo kantianism into a new robust philosophy of culture the second volume on mythical thinking analyzes the fundamental layers of perception and expression as well as

the articulations with religion and the dialectic with other forms essentially language and art the intellectual breadth of the volume is remarkable it initiated the debate with martin heidegger and prompted a long lasting meditation by hans blumenberg we are only beginning to recognize its importance for our understanding of the power of images in the construction of aesthetics the self and the socio political world it initiated a discussion within french sociology Émile durkheim marcel mauss that ultimately resurfaced in pierre bourdieu while today it is considered as a resourceful path for cultural and critical theory drucilla cornell and kenneth m panfilio finally this volume also offers solid grounds for a political critique of nazism specifically alfred rosenberg s myth of the 20th century and adolf hitler s mein kampf as well as the new emerging totalitarian ideologies fabien capeilleres professor of philosophy editor of the french edition of cassirer s works this new translation makes cassirer s seminal work available to a new generation of scholars each volume includes a translator s introduction by steve g lofts a foreword by peter e gordon a glossary of key terms and an index

edited by a small group of students including alain badiou jacques alain miller and françois regnault at the ecole normale supérieure in paris the cahiers pour l analyse appeared in ten volumes between 1966 to 1969 the journal was conceived as a contribution to a philosophy based on the primacy of concepts and the rigor of logic and formalization as opposed to lived experience or the interpretation of meaning the cahiers published landmark texts by the most influential thinkers of the day including derrida foucault irigaray and lacan and were soon recognized as one of the most significant and innovative philosophical projects of the time the two volumes of concept and form offer the first systematic presentation and assessment of the cahiers legacy in any language the second volume is a collection of newly commissioned essays on the journal and substantial interviews with members of the editorial board

between habit and thought in new tv serial drama serial connections is a consideration of some of the key examples of serial television drama available via transnational streaming platforms in recent times through the individual works examined the book exemplifies the ways in which aesthetics technology and capitalism weave a complex social fabric around the production of the respective television series thus presenting this type of serial drama as a finely engineered cultural production taking bernard stiegler s notion of an image warfare as its starting point the author critically investigates the strategies deployed by the shows producers to navigate this dynamic shaped by the new spirit of capitalism with creativity intrinsic to the process on the one hand and a highly efficient drive for capturing and fixing attention driven by algorithm and economic logic on the other the author maps the processes at work in the production of high value serial

drama and considers how despite this tension they manage to present meaningful insights into the experience of being in this world a world shaped by trauma a desire for justice and a search for systems of belief that can offer a way through the vicissitudes of contemporary life framed by a detailed analysis of the multiple processes that shape these works is a sustained analysis of the serials mr robot billions the leftovers rectify and westworld and the dynamics of despair and hope that ripple through them as such it will appeal to readers of film and television studies cultural theory and those interested in furthering a critical aesthetics for our time

ernst cassirer occupies a unique space in twentieth century philosophy a great liberal humanist his multi faceted work spans the history of philosophy the philosophy of science intellectual history aesthetics epistemology the study of language and myth and more the philosophy of symbolic forms is cassirer s most important work it was first published in german in 1923 the third and final volume appearing in 1929 in it cassirer presents a radical new philosophical worldview at once rich creative and controversial of human beings as fundamentally symbolic animals placing signs and systems of expression between themselves and the world this major new translation the first for over fifty years brings cassirer s magnum opus to a new generation of students and scholars volume 2 mythical thought considers the role of myth in human thought and expression cassirer examines the main features of morphology of myth before tackling the relationship between myth and self consciousness he argues that human beings experience of the world around them is charged with affective and emotional significance as desirable or hateful comforting or threatening it is this type of meaning which underlies mythical consciousness and explains its disregard for the distinction between appearance and reality from mythical thought religion and art develop cassirer argues making the mythical view of the world the earliest form of philosophical expression correcting important errors in previous english editions this translation reflects the contributions of significant advances in cassirer scholarship over the last twenty to thirty years each volume includes a new introduction and translator s notes by s g lofts a foreword by peter gordon a glossary of key terms and a thorough index

presenting research on the computational abilities of connectionist neural and neurally inspired systems this series emphasizes the question of how connectionist or neural network models can be made to perform rapid short term types of computation that are useful in higher level cognitive processes the most recent volumes are directed mainly at researchers in connectionism analogy metaphor and case based reasoning but are also suitable for graduate courses in those areas

tracing the story of red lodge from the 1880s to the present christensen tells how a mining town managed to endure the vagaries of the west s unpredictable extractive industries economy she connects red lodge to a myriad of larger events and historical forces to show how national and regional influences have contributed to the development of local identities exploring how and why westerners first rejected and then embraced western images and how ethnicity wilderness and historic preservation became part of the identity that defined one town book jacket
