in life after postmodernism our conception of photography is not the same as before
photography after postmodernism starts with this conception and explores what changes have affected
photography its relation to social life and our image centred culture engaging with the visual environment and issues that have emerged in the postmodern world
david bate introduces fresh approaches and analysis of photographs and their place within the aftermath of postmodernist thought
the book shows how photographs circulate in an image world beyond their art or media origins that deeply affects our sense of time and relation to memory
the role of archives dreams memories and time are deployed to develop and resituate arguments about photography made by roland barthes in camera lucida to further engage and understand our contemporary condition by considering how afterwardness is invoked in the developments of modern and contemporary photography
bate demonstrates the complex ways in which photographic images resonate across public and private spaces while carrying a slippage of meaning that is never quite fixed yet always

contingent and social the approach shows how modernist photography was already invested in values that its discourse could not enunciate which resonates with much contemporary photography today featuring a range of historical and contemporary images the book offers detailed and innovative readings of specific photographs which open new avenues of thought for those studying and researching visual culture and photography
