congratulations you just finished writing your first novel what do i do next if you're like i was that was the first question you asked yourself do you remember what i said last time in nine day novel writing steve i totally remember you said bravo pop champagne and you remember that part after the champagne about calling someone right your editor the last line of defense but editors cost a lot of money and wouldn't be helpful if we could minimize some of that expense by doing a little bit of editing ourselves before we send it off to an expensive professional don't make the mistake i did on my first novel i debated for months between paying an editor and whether i should just edit the entire thing myself after all how hard it be right predictably money won out and i chose poorly publishing my first book before a professional editor had proofread it that was a big mistake that one decision set my writing career back about a year why because my book languished on amazon as yet another unprofessional unfinished and unwanted draft posing as a completely finished novel i got discouraged disappointed and down it took months before i overcame my fear of what a professional editor would say about my first novel because that was the real reason i had edited it myself all along a great editor will make your novel shine picture your reader trying to follow the fantastic story that you painstakingly outlined

researched and wrote as they read their eyes are interrupted by misspellings grammatical errors improper word usage and dialogue that s punctuated poorly finally unable to stay engaged through those constant interruptions they give up and close your book we re not going to let that happen your editor will have the single biggest impact on the professional look and feel of your novel but that doesn t mean we can t do a little bit of editing ourselves in fact inside this book i ll show you how you can do quite a bit of self editing before your draft needs to go to an editor and that ll save you money removing the mystery to many beginning authors editing is a mysterious and often misunderstood process in this book i ll define the types of editing you need outline the parts that you can and should do yourself and then explain the process that your editor will go through as they clean up what s left no idea where to find an editor i ll show you how to find a good one on popular freelancing sites if that doesn t work i ll give you the contact information of my own editor then i ll introduce you to a piece of software that ll save you countless hours in turnaround time working with your editor and i ll walk you through the steps my writing partner and i use to fix our own drafts before they go to our editor editing is much easier if you make fewer mistakes in the first place seems simple right it should be for that reason i felt it was important for this book to have two parts to it how to clean up what you had already written and how to minimize all that cleanup by knowing what and how to write fiction sentences in the first place so the first half of the book is about editing process and work flow and the second half is a refresher course on the very basics of writing fiction sentences and the bonuses i created tutorial videos to show you exactly how i ve cut word loose and now collaborate directly with my editors inside scrivener so whether you ve never worked with an editor before or you just want to save some time money and headache editing your next draft i wrote this book for you

this guide will teach readers how to do basic research and plan their text they ll get tips on editing for grammar spelling and overall flow and consistency
