elbridge durbrow served as the third united states ambassador to the republic of vietnam from 1957 to 1961 his relationships with vietnamese president ngo đình diệm and members of the military assistance advisory group in saigon helped to shape his tenure in office which ultimately concluded with his decision to end his support for the

vietnamese leader as well as turn away from the american military representatives who had earned ngo Đình diệm s trust this triangular relationship was mired in clashes of ego and personality that often interfered with the american decision making process durbrow and his embassy staff rather than work with the vietnamese leadership chose to focus on the negative and reported to washington only those items that reinforced this perspective they created an atmosphere of distrust and anxiety that neither the americans nor vietnamese could overcome in the 1960s and helped to create the conditions for greater united states involvement in southeast asia

for decades chinese indonesians have been in numerous harsh spotlights in their own country starting from supposedly simple things like obtaining official documents to be legal citizens of indonesia their only homeland now where they can be harassed and cornered which not seldom can extend to the extremes where they are made as victims and scapegoat particularly when issues related to racism arise similar to other ethnic groups they also live in different economic classes some are very wealthy some are rich some live in the middle class economy some dwell in their simple lives some are poor and some try to survive their abject poverty in the urban areas they are seen to live a good life some are very rich or even extremely prosperous most of these people are businessmen ranging from a colossal size to a mere small business however reality also shows that many chinese indonesians in the suburb areas live an uncertain day to day life and some are even extremely poor fishermen in tangerang north sumatra riau bangka or pedicab drivers unskilled labor angkot a small public minibus drivers domestic maids office boys and blue collar workers in west kalimantan sambas and singkawang and bangka are factual examples of the grueling lives that they have to carry on striving in spite of all the facts people often forget or even intentionally ignore the facts that many chinese indonesians have also made positive contributions to their country in many different aspects such as economy sports culture science or political sectors to name a few these facts also need to be understood and enlightened to fellow countrymen in order to portray a more balanced objective view and non discriminatory judgment which in turn can prevent hatred dislike and other unfavorable prejudice against indonesian citizens of chinese descent due to the past inaccurate stereotype and labeling this book tries to present an objective portrait of chinese indonesians and their roles within their own beloved country and state with the very same goal of all proud indonesian countrymen to create a stronger unity and integrity of indonesia a country that highly values pluralism and the unity in diversity principle through the distinguished pancasila philosophy

in great power great responsibility michael poznansky explores how the liberal international order established after world war ii has influenced us foreign policy from 1945 to the present proponents argue that its impact has been profound producing a system that has been more rule bound and beneficial than any previous order critics charge that it has failed to prevent the us itself from consistently violating rules and norms poznansky contends that the answer lies in between with america s approach to compliance a function of two primary factors the intensity of competition over international order and the burden of complying with the liberal order s core tenets drawing on nine case studies the book sheds important light on the future of us foreign policy in an era where american unipolarity has ended and great power rivalry has returned

when american and south vietnamese forces led by general creighton abrams launched an attack into neutral cambodia in 1970 the invasion ignited a firestorm of violent antiwar protests throughout the united states dealing yet another blow to nixon s troubled presidency but as john shaw shows the campaign also proved to be a major military success most histories of the vietnam war either give the cambodian invasion short shrift or merely criticize it for its political fallout thus neglecting one of the campaign s key dimensions approaching the subject from a distinctly military perspective shaw shows how this carefully planned and executed offensive provided essential support for nixon s decent interval and peace with honor strategies by eliminating north vietnamese sanctuaries and supply bases located less than a hundred miles from saigon and by pushing communist troops off the vietnamese border despite the political cloud under which the operation was conducted shaw argues that it was not only the best of available choices but one of the most successful operations of the entire war sustaining light casualties while protecting american troop withdrawal and buying time for nixon s pacification and vietnamization strategies he also shows how the united states took full advantage of fortuitous events such as the overthrow of cambodia s prince sihanouk the redeployment of north vietnamese forces and the late arrival of spring monsoons although critics of the operation have protested that the north vietnamese never did attack out of cambodia shaw makes a persuasive case that the near border threat was very real and imminent in the end he contends the campaign effectively precluded any major north vietnamese military operations for over a year based on exhaustive research and a deep analysis of the invasion s objectives planning organization and operations shaw s shrewd study encourages a newfound respect for one of america s genuine military successes during the war
